Anyone Can Cook, Even the Rowers

TITLE

INTRO

They tell me my name is French for "oarsman," that I have been rowing my way uphill since I was born. They told me to stay in my lane, that I had no idea what I was doing with food. They didn't believe me about my sense of taste or smell, that I knew that one day I would be a chef until it happened.

It was a crisp fall day. Leaves scattered across the road, cushioning the footsteps of people bringing fresh baguettes home for dinner or breakfast. It is hard not to fall in love with a city like this, the way every building, street, and light can hold the potential of romance.

I saw him from the street. A garbage boy, clumsy and awkward with untied shoes and bright red hair. He was a walking disaster, unobservant of the world or people around him, barely able to hold a knife or spice a dish. You either thought him a fool, or you pitied him for not being the things he should have been. And yet, by the end of the day, he would be my closest friend who would help me achieve my dreams.

My friend and I could not speak to each other, but we had our own way of communicating, connected only by the foods we made, the relationship we learned to build in the kitchen. Most people would credit my success to impressing a food critic, making a country dish of sliced courgettes and aubergines stewed to perfection, but that is only half truth. I had the help of my patient friends, inherent sense of smell, and plenty of mistakes along the way. They call me a rower, and so I continue to row.

Breaking Open the Box Nancy DaFoe, 2013-02-12 What do David Foster Wallace s essay on wars over usage and Pico Iyer s comma personification have to do with improving students academic writing Everything For all of the attention supposedly paid to Bloom s Taxonomy with creativity at the top educators tend to shy away from encouraging students creative choices in areas where traditional analysis and the critic s style and tone have reigned While we do not want our students to write inane or empty verbiage we unintentionally set them up for this inevitability or worse The movement away from children s natural creative impulses in elementary school to a direction in which they literally fit their writing into preconfigured shapes is a gradual one Although purportedly taught to instill academic structures these boxes are also designed to facilitate the ease with which student product may be assessed We need a more creative approach to teaching writing A methodology incorporating creativity as modeled by students in this text demonstrates the kind of progress we are all seeking offering an exciting challenge for young writers and educators alike

The Politics of the Essay Ruth-Ellen B. Joeres, Elizabeth Mittman, 1993-08-22 The Politics of the Essay is that rare scholarly work that provides both a history of this relatively new field and of its formal characteristics and inspires its readers to want to participate in the making of this history Signs The first in depth study of the relationship between women and essays Employing gender race class and national identity as axes of analysis this volume introduces new perspectives into what has been a largely apolitical discussion of the essay Includes an original essay by Susan Griffin

In Their Own Words William D. Hayes Ed.D., 2009-08 In today s American college classrooms more and more international students are enrolling at a rapid pace This happened in my classroom several years ago I had taught for over twenty years at the time but I did not know how to approach these students who possessed varying levels of English proficiency My traditional methods did not work and all I could do was speak louder as if an increased volume would increase their learning Because I considered teaching a vocation I did not want to give up Instead I enrolled in a doctoral program in Adult Education and chose Teaching English as a Second Language as my Cognate In one of my doctoral classes I had to do a research project I decided to conduct interviews with my new students and simply ask them

how they preferred to learn how to speak and write in English. The results fascinated me. Based on what they told me and what I found in the literature, I totally revamped my composition classes. Gone were the days of lecture. Instead, with student input, I created a film-based approach to teaching writing that seemed to emancipate my students and they became proficient writers of English. Along the way, I was emancipated too, and I knew that my classes would never be the same. This book is a result of my experience, and I hope it can be used as a jumping off point for positive change for any college composition teacher who truly cares if their students learn.

Reading, Writing, and the Rhetorics of Whiteness Wendy Ryden, Ian Marshall, 2013-03 In this volume, Ryden and Marshall bring together the field of composition and rhetoric with critical whiteness studies to show that in our post-race era, whiteness and racism not only survive but actually thrive in higher education. As they examine the effects of racism on contemporary literacy practices and the rhetoric by which white privilege maintains and reproduces itself, Ryden and Marshall consider topics ranging from the emotional investment in whiteness to the role of personal narrative in reconstituting racist identities to critiques of the foundational premises of writing programs steeped in repudiation of despised discourses. Marshall and Ryden alternate chapters to sustain a multi-layered dialogue that traces the rhetorical complexities and contradictions of teaching English and writing in a university setting. Their lived experiences as faculty and administrators serve to underscore the complex code of whiteness even as they push to decode it and demonstrate how their own pedagogical practices are raced and racialized in multiple ways. Collectively, the essays ask instructors and administrators to consider more carefully the pernicious nature of whiteness in their professional activities and how it informs our practices.
