island where a young woman must fight for survival while she works to discover who from her research team is really a killer. The island was abandoned for fifty years. So how did the body get there? Three hundred miles from the mainland in the middle of the Atlantic Ocean lies Navigaceo, a tiny island that was hastily abandoned fifty years ago and has been uninhabited ever since. Until now, Tess Macfarlane is a documentary filmmaker tasked with capturing the wild beauty of Navigaceo. Accompanied by a small team of researchers, her job is to film everything she sees. But Tess sees too much: a body. It's clearly a recent murder. It shouldn't be there. And the victim is wearing the same expedition uniform as her colleagues. Someone has been here already, and everyone on the team is a suspect. More than one of them could be a murderer. With five days until they are returned to the mainland, Tess must be careful or hers might be the next body found on the shore. *Federal Register*, 1979
