Standing between Life and Extinction David L. Propst, Jack E. Williams, Kevin R. Bestgen, Christopher W. Hoagstrom, 2021-02-15 North American deserts lands of little water have long been home to a surprising diversity of aquatic life from fish to insects and mollusks With European settlement however water extraction resource exploitation and invasive species set many of these native aquatic species on downward spirals In this book conservationists dedicated to these creatures document the history of their work the techniques and philosophies that inform it and the challenges and opportunities of the future A precursor to this book Battle Against Extinction laid out the scope of the problem and related conservation activities through the late 1980s Since then many nascent conservation programs have matured and researchers have developed new technologies improved and refined methods and greatly expanded our knowledge of the myriad influences on the ecology and dynamics of these species Standing between Life and Extinction brings the story up to date While the future for some species is more secure than thirty years ago others are less fortunate Calling attention not only to iconic species like the razorback sucker Gila trout and Devils Hole pupfish but also to other fishes and obscure and fascinating invertebrates inhabiting intermittent aquatic habitats this book explores the scientific social and political challenges of preserving these aquatic species and their habitats amid an increasingly charged political discourse and in desert regions characterized by a growing human population and rapidly changing climate *Idaho's Forest Products Industry* ,2004 **The Shadow of Saganami** David Weber, 2004-11-01 STUDENTS OF HONOR The Star Kingdom of

Manticore is once again at war with the Republic of Haven after a stunning sneak attack. The graduating class from Saganami Island, the Royal Manticoran Navy's academy, are going straight from the classroom to the blazing reality of all-out war. Except for the midshipmen assigned to the heavy cruiser HMS Hexapuma—that is, they're being assigned to the Talbott Cluster, an out-of-the-way backwater far from the battle front. The most they can look forward to is the capture of the occasional pirate cruiser and the boring duty of supporting the Cluster's peaceful integration with the Star Kingdom at the freely expressed will of eighty percent of the Cluster's citizens. With a captain who may have seen too much of war and a station commander who isn't precisely noted for his brilliant and insightful command style, it isn't exactly what the students of Honor Harrington, the Salamander, expected. But things aren't as simple or tranquil as they appear. The pirates they encounter aren't what they seem, and the peaceful integration they expected turns into something very different. A powerful alliance of corrupt Solarian League bureaucrats and ruthless interstellar corporations is determined to prevent the Cluster's annexation by the Star Kingdom by any means necessary. Pirates, terrorists, genetic slavers, smuggled weapons, long-standing personal hatreds, and a vicious alliance of corporate greed, bureaucratic arrogance, and a corrupt local star nation with a powerful fleet are all coming together, and only Hexapuma, her war-weary captain, and Honor Harrington's students stand in the path. They have only one thing to support and guide them: the tradition of Saganami. The tradition that sometimes a Queen's officer's duty is to face impossible odds and die fighting. At the publisher's request, this title is sold without DRM (Digital Rights Management).
