policy responses by evaluating the convergence of variables from the range of school based mass shootings included in this study These variables include the type of weapon used the availability of that type of weapon perpetrator characteristics school characteristics as well as the geospatial and demographic characteristics of the school neighborhood These school based mass shooting incidents are explored at both the state and regional level and are further discussed in comparison to leisure time gun use homicide rates and suicide rates in the geographical area The overarching geospatial analytical framework for this research also includes an examination of the manner in which existing policy enactments such as state gun laws vary by geography Spaulding Flowers and Lane Pixley argue that the increased number of fatalities in school based mass shooting is largely due to the increased lethality of the weapons and they propose alternative solutions Scholars of criminology sociology political science and history will find this book particularly useful **Jane's Infantry Weapons** ,2001

Women & Guns ,2005 **The Lives of Guns** Jonathan Obert,Andrew Poe,Austin Sarat,2018-09-03 Guns have never been as prevalent in American culture as they are at this moment Most contemporary conversations on guns either highlight the gun as just a tool used in mass killings or a right to be fiercely defended eventually whatever progress these debates foster in the public conversation tend to halt altogether once the old clich guns don t kill people people kill people is trotted out These gun control and gun violence discussions take the gun as passive object ignoring the changing effects and the very agency that guns may deploy as politicized objects What happens if we reset the conversation and admit that guns and not the people behind them kill people The Lives of Guns offers a new and compelling way of thinking about the role of the gun in our social and political lives In gathering ideas from law science studies sociology and politics each chapter turns the stale standard gun conversations around by investigating the gun as an object with agency In approaching guns from a technological perspective down to the very science of how they are created and how they fire The Lives of Guns takes up a number of questions such as How does the presence of these objects shape civic ideology What does it mean to develop and care for gun and gun accessories technology What do guns mean to those who build them versus those who fight for and against them What could happen when drone technology meets gun technology In bringing together fresh perspectives from leading lawyers political scientists and historians The Lives of Guns promises to move the gun debate forward by opening up new ways of thinking about these issues and broadening the scope of these perennial debates *A Collection of Connecticut Selected Jury Instructions, Criminal* ,2001 **The Vivarium** ,1998 *Repeal the Second Amendment* Allan J.

Lichtman,2020-01-28 A radical case for the repeal of the 2nd Amendment as the only way to control gun violence in America There s an average of one mass shooting per day in the United States Given the ineffectiveness of the gun control lobby it s time for a strategy with spine In *Repeal the Second Amendment* Allan J Lichtman has written the first book that uses history legal theory and up to the minute data to make a compelling case for the amendment s repeal in order to create a clear road to sensible gun control in the US *Repeal the Second Amendment* explores both the true history and current interpretation of

the Second Amendment to expose the NRA's blatant historical manipulations and irresponsible fake news releases Lichtman looks at the history of firearms and gun regulations from colonial times to the present to explain how a historically forgotten sentence in the Constitution has become a flash point of recent politics that benefits only the gun industry, their lobbyists, and the politicians on their payroll. He probes court decisions and the effective lobbying and public relations strategies of the gun lobby as well as the ineffectiveness of the gun control movement for lessons in doing better. What emerges is a clear and cogent plan: repeal and replace the Second Amendment without taking guns away from anyone who has them now to make the US a safer place. It's time to Repeal the Second Amendment and Allan Lichtman is the man to bring this radical plan to America.
