Enriching Teaching and Learning Environments With Contemporary Technologies Durnali, Mehmet, Limon, İbrahim, 2020-02-07 Educational technologies have revolutionized the learning and teaching environments Offline online applications and social media have changed the conventional learning and teaching habits and competencies In terms of learners it has been empirically proven that the use of educational technologies in the classroom make learning easier and more enjoyable On the other hand it also poses threats to students such as cyberbullying and online addiction While exploiting the opportunities of technological use in the classroom educators must also remain vigilant and formulate ways to overcome the challenges and risks brought by technology Enriching Teaching and Learning Environments With Contemporary Technologies is an essential research publication that aims to present exemplary practices of technology use and their management in pedagogical purposes in learning and teaching environments The book also analyzes problems that may arise and develops policies on educational technologies and the exploitation of technology with pedagogical purposes as part of the discussion to solve these challenges Featuring a wide range of topics such as augmented reality mass media and religious education this book is ideal for educators who want to use technology in class educational administrators who have responsibilities for developing policies on educational technologies and managing the use of them and researchers who want to carry out a deep investigation into the subject Additionally educational software developers academicians instructional designers curriculum developers education professionals and students will also benefit from the research contained within the book

Theoretical Nursing Afaf Ibrahim Meleis, 2011 An additional assumption was that the processes for theory development were new to nursing and hence nurses in graduate programs learned strategies for advancing knowledge from other disciplines This assumption was debunked with the knowledge that nurses were always engaged in knowledge development driven by their experiences in clinical practice Because of these assumptions most of the early writing about theory development was about outlining strategies that should be used rather than strategies that have already been used in the discipline to develop theories Theorists themselves did not uncover or adequately discuss ways by which they developed their theories therefore the tendency was to describe processes that were based on theories developed in other disciplines mainly the physical and social sciences And an implicit assumption was made that there should be a single strategy for theory development some claiming to begin the process from practice and others believing it should be driven by research Provided by publisher

Good Cascade Impactor Practices, AIM and EDA for Orally Inhaled Products Terrence P. Tougas,Jolyon P. Mitchell,Svetlana A. Lyapustina,2013-04-10 The purpose of this publication is to introduce a new simpler and more effective way in which to interpret pharmaceutical aerosol particle size data from orally inhaled products OIPs Currently the compendial and regulatory requirements dictate the need for measurements by full resolution multi stage cascade impactor CI a process that is demanding for the operator time consuming prone to experimental error and challenging for method transfers from one laboratory to another Furthermore we shall show that the current practice of reducing information from mass weighted aerodynamic particle size distribution APSD measurements through the use of CI stage groupings is not the most effective decision making tool for OIP quality control QC in comparison with newly introduced mutually independent efficient data analysis EDA metrics that can be derived either from full resolution or abbreviated impactor measurements AIM
