Soccodato,2024-02-19 Water supply is one of the most critical tasks to address on the fireground Effective water supply operations provide the needed volume of water for the current operation and support the flow requirements for escalating incidents Water Thievery The Art of Water Supply Operations is a culmination of institutional knowledge real world experience and lessons learned This book urges the supply pumper operator to think proactively so they always know what to do when more is needed and can become a resource for others seeking solutions Get a thorough understanding of advanced water supply tactics including Alternative Drafting Techniques Rural Water Supply Operations Four Way Hydrant Valve Operations Water Supply for Aerial Apparatus Large Flow Operations and Tactics The Humble Cosmopolitan Luis Cabrera,2020 Is a strong cosmopolitan stance irretrievably arrogant Cosmopolitanism which affirms universal moral principles and grants no fundamental moral significance to the state has become increasingly central to normative political theory Yet it has faced persistent claims that it disdains local attachments and cultures while also seeking the neo imperialistic imposition of Western moral views on all persons The critique is said to apply with even greater force to institutional cosmopolitan approaches which seek the development of global political institutions capable of promoting global aims for human rights democracy etc This book works to address such objections through developing a novel theory of cosmopolitan political humility It draws on the work of Indian constitutional architect and social activist B R Ambedkar who cited universal principles of equality and rights in confronting domestic exclusions and the arrogance of caste He sought to advance forms of political humility or the recognition of equal standing and openness to input and challenge within political institutions This book explores how an institutional global citizenship approach to cosmopolitanism could similarly promote political humility globally by supporting the development of democratic input and challenge mechanisms beyond the state Such developments would challenge an essential political arrogance identified in the current system where sovereign states are empowered to simply dismiss rights based challenges from outsiders or their own populations even as they serve as the designated guarantors of human rights The book employs an innovative grounded normative theory method where extensive original field research informs the development of moral claims Insights are taken from Dalit activists reaching out to United Nations human rights bodies for support in challenging caste discrimination and from their critics in the governing Bharatiya Janata Party Further insights are drawn from Turkish protestors confronting a rising domestic authoritarianism and from UK Independence Party members demanding Brexit from the European Union in part because predominantly Muslim Turkey could eventually join Overall it is shown an institutional global citizenship approach can inform the development of a global framework which would orient fundamentally to political humility rather than arrogance and which could significantly

Cynthia T. E. Franklinos, 2024-11-05 Propertius Cynthia considers Propertius metapoetic and intra and intertextual habits and their relationship with the repetitious amatory discourse that he fashions for himself with his beloved Cynthia Where scholarship tends to treat as separate the metaliterary and the amatory aspects of Propertius poetry this volume focussed on Books 3 and 4 argues that his discussion of his own poetry and of his relationship to it as an author figure his metapoetic commentary is closely married to and can be clearly mapped onto his account of his relationship with Cynthia especially in Books 1 3 Moreover it demonstrates that the amorous discourse the elegist fashions is constituted of a poetics of repetitiousness that is apt for the articulation of an elegiac relationship that by its nature cannot progress The encounters between Propertius and Cynthia are repetitive and the poet mirrors these in his recollection of lexical and thematic aspects of earlier poems in later ones Each poem provides a fragmentary glance at Propertius relationship and through repetitions with variation the elegist shapes his readers understanding of his amatory discourse Furthermore it is argued that since his beloved is the embodiment of his poetry Propertius account of his changing relationship with her allows him to articulate the transformations of his elegiac corpus this becomes most significant as the close of Book 3 appears to end their relationship and he begins a radical experimentation with the generic bounds of elegy that is expanded in Book 4 where the polyvalent Vertumnus embodies the poet s work *Housing* United States.
