*Analytic Research Foundations for the Next-Generation Electric Grid* National Academies of Sciences, Engineering, and Medicine, Division on Engineering and Physical Sciences, Board on Mathematical Sciences and Their Applications, Committee on Analytical Research Foundations for the Next-Generation Electric Grid, 2016-05-15 Electricity is the lifeblood of modern society and for the vast majority of people that electricity is obtained from large interconnected power grids However the grid that was developed in the 20th century and the incremental improvements made since then including its underlying analytic foundations is no longer adequate to completely meet the needs of the 21st century The next generation electric grid must be more flexible and resilient While fossil fuels will have their place for decades to come the grid of the future will need to accommodate a wider mix of more intermittent generating sources such as wind and distributed solar photovoltaics Achieving this grid of the future will require effort on several fronts There is a need for continued shorter term engineering research and development building on the existing analytic foundations for the grid But there is also a need for more fundamental research to expand these analytic foundations Analytic Research Foundations for the Next Generation Electric Grid provide guidance on the longer term critical areas for research in mathematical and computational sciences that is needed for the next generation grid It offers recommendations that are designed to help direct future research as the grid evolves and to give the nation's research and development infrastructure the tools it needs to effectively develop test and use this research

*Positive Psychology Coaching in the Workplace* Wendy-Ann Smith, Ilona Boniwell, Suzy Green, 2021-09-29 This research to practice text explores how coaching can support thriving in the workplace It focuses on positive psychology coaching in the workplace in relation to the convergence with organisational psychology and coaching psychology professional and ethical practices resilience and wellbeing team and systemic approaches leadership tools of intervention convergence of clinical interventions and virtuousness and the future of thriving workplaces The chapter contributions represent a truly international scholarship and bring together complementary perspectives from the fields of positive psychology coaching psychology organisational psychology organisational scholarship neuroscience education and philosophy Written in a scholarly but accessible style this text is of interest to a wide readership including academics professionals and postgraduate students of positive psychology organisational psychology counselling and coaching psychology human resource management mental health health and social welfare Smith Boniwell and Green have brought together an outstanding collection of thought leaders from the field of positive psychology coaching to craft an

in depth exploration of the contribution positive psychology can make to delivering transformation change through coaching conversations A fascinating read full of evidence and insight Jonathan Passmore Professor of Coaching Behavioural Change Director Henley Centre for Coaching Henley Business School     **Newsletter** ,1982     *Edible Film and Coatings* Jian Ju,Fangyuan Zhao,2025-09-08 Edible films and coatings can be environmentally friendly alternative materials serving as both food preservative and food packaging This book describes the effects of foodborne microorganisms and food oxidation on food storage quality and current food preservation strategies Basic information and practical applications of various edible films and coatings for potential use in food packaging are provided preparation methods of different types of edible films and coatings are described and industrial applicability of these technologies is emphasized The book describes the use of edible films or coatings to prevent corruption and oxidation of fruits or fresh cut fruits and meat products Key Features Describes the preparation methods and required materials for different types of edible films and coatings emphasizing industrial applicability Explains the theory of slow controlled release of active ingredients in packaging materials and the migration of packaging elements into food Discusses the key technologies for the preparation of edible antimicrobial packaging materials and functional edible coatings     **The Case for Pandora** James Essig,Steve McCarter,2016-12-19 This book is about building craft for space travel space travel that is not in the distant future but in the immediate future There is no question that we have the technology to build and power large craft capable of traversing the galaxy and for now this book will focus on achieving the goal of intragalactic travel We will describe various methods of power generation and propulsion delineate the materials and technology for construction discuss the building of the spacecraft from the outside in and show what is required to sustain life on the craft for extended periods of time While we will go into some detail on each of these pointing out advantages and disadvantages to components and methods this is not nor is it intended to be a highly technical book to be used by specialists Rather it is intended to inform the general readership about what is possible and perhaps what is not in building and operating spacecraft for long distance and long duration travel with current and available means

*Sediment dynamics and geohazards in estuaries and deltas* Xiaolei Liu,Paul Liu,Ya Ping Wang,2023-02-17

*Photography and Cultural Heritage in the Age of Nationalisms* Ewa Manikowska,2020-09-08 The second half of the 19th century was a time of extensive political upheaval in central east Europe that saw the negotiation of conflicting territorial claims in the region by the Russian Austrian and Prussian empires The post WW1 settlement gave rise to the formation of the independent nation states of Poland Lithuania Ukraine Latvia and Belarus Less well know is that this same period was also an era of keen photographic activity During this time of empire state and nation building cultural heritage was a potent vehicle and a provider of collective memory and identity This innovative account analyses the relationship between politics history cultural heritage and photography in central east Europe between 1859 and 1945 To understand the work photographs do in the construction of cultural heritage the author analyses a wide range of little known photographic

archives created by contemporary professional and amateur photographers Their work was extensively exploited in contemporary debates appearing in albums books journals exhibitions museum exhibits postcards and newspapers aimed at both scientific and popular and national and international publics An extensive analysis of how photographic practices and outcomes were applied borrowed copied appropriated and transmitted shows how photography was used to exert or subvert power on the one hand and as a tool in constructing and negotiating group identities on the other By weaving photography and its patterns of making dissemination and archival survival through major historical narratives this volume reveals the centrality of photography and visual discourse at pivotal moments of modern history

Sport Participation and Olympic Legacies Spencer Harris, Mathew Dowling, 2021-08-10 This book examines claims that the Olympic Games are a vehicle to inspire and increase mass sport participation It focuses on the mass sport participation legacy of the most recent hosts of the summer Olympics including Atlanta Sydney Athens Beijing London Rio and Tokyo It is organised by host city country and applies an analytical framework to each addressing the socio political context that shapes sport policy the key changes in sport policy the structure and governance of community sport the Olympic and Paralympic legacy and the changes in mass sport participation before during and after the Games The book is important reading for students researchers and policymakers working in sport governance sport development or management and the sport policy sector
