Urban Agriculture and Community Values

Lisa Newton,2020-03-18 This book addresses the evolving crisis in agriculture and sketches the community economy that grounds agricultural enterprise more accurately than the industrial model In its current practice agriculture is in the United States but increasingly in the rest of the world unsustainable and destructive The most immediately unsustainable feature of industrial agriculture is its dependence on the products of petroleum as feedstock for fertilizers herbicides and pesticides and as fuel for the farm machinery and transport of agricultural products into the cities The problems of agriculture and in general the food systems to which it is attached range from the vulnerability of monocultures to new and stronger pests to the emerging medical problem of obesity The need for agricultural reform is widely acknowledged one part of the new work being done suggests that food production in the cities may solve several of its problems at once This book is suitable for both undergraduate and graduate students in agriculture and environmental studies

Miraculous Abundance Perrine

Herve-Gruyer,Charles Herve-Gruyer,2016-03-14 Farmers like Charles and Perrine Herv Gruyer are beacons of light Their work allows the rest of the world to see that there is another life there is another way Eliot Coleman What began as a simple dream has turned into one of the world s most radical innovative experiments in small scale farming using the Bec Hellouin model for growing food sequestering carbon creating jobs and increasing biodiversity without using fossil fuels When Charles and Perrine Herv Gruyer set out to create their farm in a historic Normandy village they had no idea just how much their lives would change Neither one had ever farmed before Charles had been traveling the globe teaching students about ecology and indigenous cultures Perrine had been an international lawyer in Japan Their farm Bec Hellouin has since become an internationally celebrated model of innovation in ecological agriculture Miraculous Abundance is the eloquent tale of the couple s quest to build an agricultural model that can carry us into a post carbon future The authors dive deeper into the various farming methods across the globe that contributed towards the creation of the Bec Hellouin model including

Permaculture and soil health principles Korean natural farming methods Managing a four season farm Creating a productive agroecosystem that is resilient and durable Using no dig methods for soil fertility Modelling an agrarian system that supports its community in totality from craft restaurants and shared work spaces to jobs agritourism energy and ecological biodiversity Perfect for aspiring and experienced farmers gardeners and homesteaders Miraculous Abundance is a love letter to a future where ecological farming is at the centre of every community This book more about philosophy than a how to describes how two inexperienced beginners succeeded in creating a gorgeous productive self sustaining farm Marion Nestle
