TERM	DIAGRAM
A chord is a segment whose endpoints lie on a circle.	 The diagram shows a circle with three intersecting lines/segments. A red line segment labeled 'Chord' connects two points on the circle, labeled 'A' and 'B'. A blue line labeled 'Secant' and 'l' passes through the circle at two points. A green line labeled 'Tangent' and 'm' touches the circle at a single point labeled 'C', which is also labeled 'Point of tangency'.
A secant is a line that intersects a circle at two points.	
A tangent is a line in the same plane as a circle that intersects it at exactly one point.

The Pearson Guide to Complete Mathematics for AIEEE, 3/e (New Edition) Khattar, 2010 *Portal through Mathematics: Journey to Advanced Thinking* O. A. Ivanov, 2019-10-09 Portal through Mathematics is a collection of puzzles and problems mostly on topics relating to secondary mathematics. The problems and topics are fresh and interesting and frequently surprising. One example the puzzle that asks how much length must be added to a belt around the Earth's equator to raise it one foot has probably achieved old chestnut status. Ivanov after explaining the surprising answer to this question goes a step further and asks if you grabbed that too long belt at some point and raised it as high as possible how high would that be. The answer to that is more surprising than the classic puzzle's answer. The book is organized into 29 themes each a topic from algebra geometry or calculus and each launched from an opening puzzle or problem. There are excursions into number theory solid geometry physics and combinatorics. Always there is an emphasis on surprise and delight. And every theme begins at a level approachable with minimal background requirements. With well over 250 puzzles and problems there is something here sure to appeal to everyone. Portal through Mathematics will be useful for prospective secondary teachers of mathematics and may be used as a supplementary resource in university courses in algebra geometry calculus and discrete mathematics. It can also be used for professional development for teachers looking for inspiration. However the intended audience is much broader. Every fan of mathematics will find enjoyment in it. *Self-Help to CBSE Applied Mathematics (Solutions of RD Sharma) Class 11* Munish Sethi, This book includes the Solutions to the Questions given in the textbook CBSE Applied Mathematics written by RD Sharma published by Dhanpat Rai.
