

5) In the diagram below of right triangle ACB , altitude \overline{CD} intersects \overline{AB} at D . If $AD = 3$ and $DB = 4$, find the length of CD in simplest radical form.

ALTITUDE RULE

$$\frac{3}{x} = \frac{x}{4}$$

$$x^2 = 12$$

$$x = \sqrt{12}$$

$$\begin{aligned}\sqrt{12} &= \sqrt{4} \sqrt{3} \\ &= 2\sqrt{3}\end{aligned}$$

$$\boxed{CD = 2\sqrt{3}}$$

6) In the diagram below, the length of the legs \overline{AC} and \overline{BC} of right triangle ABC are 6 cm and 8 cm, respectively. Altitude \overline{CD} is drawn to the hypotenuse of $\triangle ABC$. What is the length of \overline{AD} to the nearest tenth of a centimeter?

Leg Rule

$$\frac{AC}{AD} = \frac{AB}{AC}$$

$$AB^2 = 6^2 + 8^2$$

$$AB^2 = 36 + 64$$

$$AB^2 = 100$$

$$AB = 10$$

$$\longrightarrow \frac{6}{x} = \frac{10}{6}$$

$$10x = 36$$

$$x = 3.6$$

$$\boxed{AD = 3.6}$$

7) In the diagram of $\triangle ABC$ shown below, $\overline{DE} \parallel \overline{BC}$. If $AB = 10$, $AD = 8$, and $AE = 12$, what is the length of \overline{EC} ?

$$\begin{aligned}DB &= 10 - 8 \\ &= 2\end{aligned}$$

$$\frac{AD}{DB} = \frac{AE}{EC}$$

$$\frac{8}{2} = \frac{12}{x}$$

$$8x = 24$$

$$x = 3$$

$$\boxed{EC = 3}$$

8) In $\triangle ABC$ below, \overline{AD} is the angle bisector of $\angle BAC$. If $AB = 6$, $AC = 4$, and $BC = 8$, what is the length of \overline{DC} ?

$$\frac{AB}{AC} = \frac{BD}{DC}$$

$$\frac{6}{4} = \frac{8-x}{x}$$

$$6x = 4(8-x)$$

$$6x = 32 - 4x$$

$$10x = 32$$

$$x = 3.2$$

The Paradoxes of High Stakes Testing Michael Russell,George Madaus,Jennifer Higgins,2009-02-01 As a nation we spend more than 1 billion a year on federally mandated educational tests that 30 million students must take each year The country spends an additional 1 2 billion on test preparation materials designed to help students pass these tests While test mandates were put in place with good intentions increasingly educational leaders and policy makers are questioning these test based reform efforts Some question whether these programs are doing more harm than good Others call for the development of more and better tests Given the vast amount of resources our nation pours into testing is it time we pay closer attention to these testing programs Is it time we hold the testing industry and policy makers accountable for the tests they make and use Is it time we invest resources to develop new ways of testing our students The Paradoxes of High Stakes Testing explores these and other questions as it helps parents teachers educational leaders and policy makers better understand the complexities of educational policies that use tests as a lever for improving the quality of education The book explores how testing is used to enable teachers and schools to be more effective and improve student learning why testing is so ingrained in the American psyche and why policy makers rely on testing policies to reform our educational system what we can learn from a long history of test based reform efforts that have occurred over centuries and across continents what effects testing has on teaching and learning in our schools when it is used to solve political social or economic problems Most importantly

the book describes several ways in which testing can be improved to provide more accurate and more useful measures of student learning Many of these improvements capitalize on technology to provide teachers with more detailed diagnostic information about student learning and measure skills that some leaders argue are essential for the 21st century work force Exploring what is within reach is critical because current testing policies are hindering these improvements Finally given that testing is and will continue to be an integral part of our educational system the book concludes that like other sectors of our society educational testing must be more closely monitored to ensure that high quality tests are used to measure student achievement and to minimize the negative effects that testing has on students schools and our society Given the opportunity our nation has to rethink and redesign its testing policies *The Paradoxes of High Stakes Testing* presents a clear strategy to maximize the positive effects of educational testing **LEAP 2025 Math Workbook** Michael Smith, Elise
