In most cases, users in Sage 300 ERP should be authorized through the system's user management system. The following steps outline how to authorize users:

1. Log into the user management system and select Users from the menu on the left-hand side.
2. Select an individual user from the list of users and click on their name in the top right-hand corner of the screen.
3. On the User Authorization tab, you will see a list of permissions that have been assigned to this user. Click on the checkbox next to each permission that you want to authorize this user to have.
