The Periodic Table

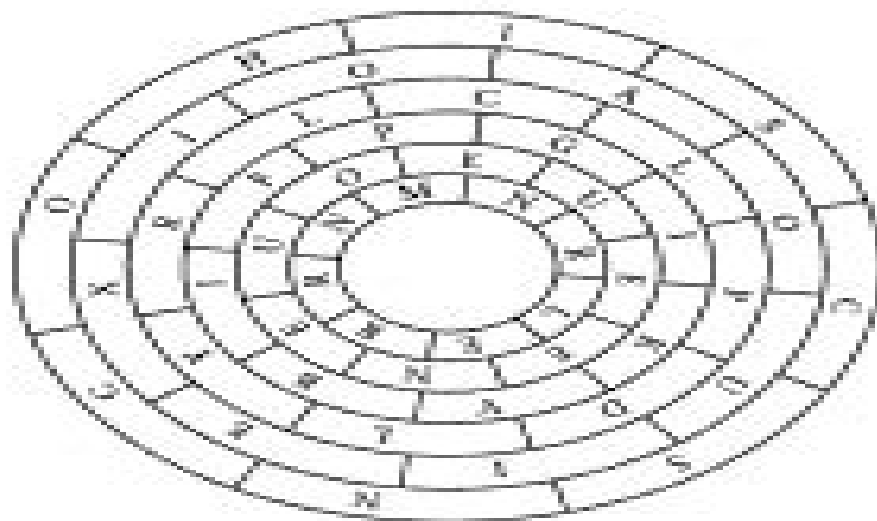

Periodic Crime

1. This is an eyewitness account of a crime recently committed. Which element constituted the crime?

"He was definitely a metal, but really soft. Like you could cut him with a knife. As he ran past us, we squatted him with a water gun. He burst into flames! It was unbelievable. We almost had him cornered, but he pulled out a vial of chloroform gas and in the blink of an eye, he disappeared. All that was left was a pile of table salt."

Elements in the Band

2. Moving from the outside of the circle to the center of the circle, choose one letter from each ring to find the names of eight common elements. Write the names of the elements on the lines provided. Each letter will be used only once.
