Reflexive Design Design And Research In Architecture:

Reflexive design Margitta Buchert, 2014 REFLEXIVES ENTWERFEN beschreibt ein integratives Theorie und praxisrelevantes Handlungsfeld der Genese und Interpretation von Entwerfen und Forschen in der Architektur. Die formative Rolle forschender Entwurfsstrategien für architektonische Entwicklungen der Moderne bis in die Gegenwart ist bislang nur in Teilen erkannt. Gleichzeitig wird entwurfswissenschaftlichen Diskursen in den letzten Jahren eine deutlich wachsende Bedeutung beigemessen. Im Schnittstellenbereich beider Kontexte skizzieren die Beiträge des Buches zum einen ein vielfältiges Spektrum der kreativen und kulturellen Spannweiten von Reflexivität und reflexiven Entwurfsprozessen und zum anderen die Potentialität verschiedener Weisen der Generierung und unerwarteten Verknüpfung von Wissen und Projektideen in der Architektur.

Frameworks of Design-Driven Research Borrego, Ignacio, Pasel, Ralf, Weidinger, Jürgen, 2023-03-02 After the six conferences for artistic and architectural research CA²RE has contributed substantially to the fact that design-driven research today is a widely established and scientifically accepted research method in most European countries and the number of involved universities is an indicator for a rapidly growing community in the field of practice-based research. This big effort has meant an interchange of knowledge and at the same time the construction of an international net with very valuable connections. We have created a collective learning environment where we have developed a multidisciplinary approach to a design-driven methodology on scientific research along six steps: observation, sharing, comparison, reflection, reformulation and recommendation that arrive now to an end or at least to a preliminary evaluation after this three-year journey. In this final

book we collect and share the results of the last two events Ljubljana and Delft and the recommendations and conclusions from all partners participating in the whole process Nach den sechs Konferenzen zu Themen der künstlerischen und architektonischen Forschung hat CA RE wesentlich dazu beigetragen dass Design Driven Research heute eine weithin etablierte und wissenschaftlich akzeptierte Forschungsmethode in den meisten europäischen Ländern ist Die Zahl der beteiligten Universitäten ist ein Indikator für eine schnell wachsende Gemeinschaft im Bereich der praxisorientierten Forschung Diese Anstrengung hat einen Wissensaustausch und gleichzeitig den Aufbau eines internationalen Netzwerkes mit wertvollen Verbindungen hervorgebracht Wir haben ein kollektives Lernumfeld geschaffen in dem wir einen multidisziplinären Ansatz für eine gestaltungsorientierte Methodik der wissenschaftlichen Forschung in sechs Schritten entwickelt haben Beobachtung Austausch Vergleich Reflexion Neuformulierung und Empfehlung Diese Entwicklung kommt nun nach drei Jahren zu einem Ende oder zumindest zu einer vorläufigen Bewertung In diesem abschließenden Buch werden die Ergebnisse der letzten beiden Veranstaltungen Ljubljana und Delft sowie die Empfehlungen und Schlussfolgerungen aller am gesamten Prozess beteiligten Partner zusammengefasst

Design Research Peter Downton, 2003 Design research **The Tacit Dimension** Lara Schrijver, 2021-05-03 In architecture tacit knowledge plays a substantial role in both the design process and its reception The essays in this book explore the tacit dimension of architecture in its aesthetic material cultural design based and reflexive understanding of what we build Tacit knowledge described in 1966 by Michael Polanyi as what we can know but cannot tell often denotes knowledge that escapes quantifiable dimensions of research Much of architecture's knowledge resides beneath the surface in nonverbal instruments such as drawings and models that articulate the spatial imagination of the design process Awareness of the tacit dimension helps to understand the many facets of the spaces we inhabit from the ideas of the architect to the more hidden assumptions of our cultures Beginning in the studio where students are guided into becoming architects the

book follows a path through the tacit knowledge present in materials conceptual structures and the design process revealing how the tacit dimension leads to craftsmanship and the situated knowledge of architecture in the world Contributors Tom Avermaete ETH Zürich Margitta Buchert Leibniz Universität Hannover Christoph Grafe Bergische Universität Wuppertal Mari Lending The Oslo School of Architecture and Design Angelika Schnell Academy of Fine Arts Vienna Eireen Schreurs Delft University of Technology Lara Schrijver University of Antwerp

Epistemic Artefacts Matthias Ballestrem, Lidia Gasperoni, 2022-09-05 Epistemic Artefacts A Dialogical Reflection on Design Research in Architecture Edited by Matthias Ballestrem and Lidia Gasperoni Architectural artefacts are negotiated as epistemic objects an autonomous and innovative form of knowledge capable of inaugurating and institutionalising architectural research The backbone of this publication is a dialogue between the architect Matthias Ballestrem and the philosopher and architectural theorist Lidia Gasperoni In a vibrant discussion they consider the epistemic value of the architectural artefact the role of research practices in making this knowledge explicit and accessible and the criteria for qualifying as design based research Alex Arteaga Fabrizia Berlingieri Peter Bertram Helga Blocksdorf Anelka Bnin Bninski Marta Fernandez Guardado Joerg Fingerhut Anke Haarmann Rolf Hughes Rachel Hurst Daniel Norell Tomas Ooms Claus Peder Pedersen Tim Simon Meyer and Philip Ursprung have added short comments and images to enrich the arguments with criticism extensions associations and references An afterword by Marcelo Stamm provides a theoretical reflection on a possible taxonomy of epistemic artefacts *The Architecture Annual 2006-2007. Delft University of Technology*, 2008 The themes of this Architecture Annual focuses on how the materials design construction and running of a building can affect the environment

Spatial Transformation Milad Abassiharofteh, Jessica Baier, Angelina Göb, Insa Thimm, Andreas Eberth, Falco Knaps, Vilja Larjosto, Fabiana Zebner, 2022 What can be understood by spatial transformation how does it manifest itself and what are the characteristics of transformation processes This Research Report addresses these questions and presents current research projects and approaches from an academic and practical planning perspective A central point of reference is the concept of a Great Transformation which stems from an expert report by the German Advisory Council on Global Change WBGU It outlines the profound changes in the economy and society towards sustainability that will become necessary in the future describing them as a Great Transformation Likewise social upheavals also manifest themselves in space enabling spatial changes to be understood as spatial transformations However on a detailed level it remains unclear what is to be understood by spatial transformation processes and how they manifest themselves Against the background of this need for further research this Research Report addresses concrete issues in the research and shaping of spatial transformation processes The aim is to systematise the largely unordered or disordered knowledge of spatial transformation processes and to contribute to a common understanding of the associated concepts which can form the basis for further research and for the steering of these processes The articles on the following topics show how spatial and social transformation processes are mutually dependent and what opportunities and challenges inter

and transdisciplinary research designs can offer in this context Perspectives on transformation processes Social and settlement structures in change Regional development and innovation Transformation processes in the so called Global South New challenges for planning processes and stakeholders Research on transformation The contributions to theoretical methodological and practical approaches are intended to stimulate a critical discussion on spatial transformation that is open to new interdisciplinary perspectives
