Handbook of Nature-Based Solutions to Mitigation and Adaptation to Climate Change Gustavo J. Nagy, Desalegn Yayeh Ayal, 2025-11-04 Over recent years nature based solutions NbS have gained popularity as tools to ameliorate the effects of climate change while slowing down the global warming process More specifically the potential of NbS has been explored in terms of meeting greenhouse gas emissions targets and fostering climate change adaptation NbS are methods that use and enhance nature to improve social and environmental challenges They involve several multifaceted actions that work sustainably to restore and protect the natural environment while helping people Therefore these solutions are useful in climate change adaptation and mitigation There are 3 main areas which NbS may target namely reducing exposure reducing sensitivity and supporting adaptive capacity Reducing exposure refers to protecting areas from existing climate change effects There is thus a perceived need to document and promote experiences related to NbS and to apply these in different contexts It is against this background that the Handbook of Nature Based Solutions to Mitigation and Adaptation to Climate Change is being produced The publication will showcase experiences related to NbS from around the world In particular it will gather examples of projects studies and the latest thinking on NbS which can serve the purpose of inspiring and fostering further works in this key area Thanks to its scope and thematic diversity the book will be of special interest to representatives from government organisations researchers and students from a wide range of natural and social sciences courses It will also provide useful information to practitioners and representatives from non governmental organisations

African Brain Circulation ,2007-07-30 In this book discussions on African brain circulation and transnational society provide new insights and point to fertile research and policy agendas Today a globally important dilemma concerns citizens who either depart from their homeland to enhance their life chances in a rich society but possibly contribute to a brain drain for their homeland or stay home and work but possibly contribute to a brain waste since conditions at home will not allow them to contribute commensurately with their capability Increasingly scholars on the subject of global South to West emigrants argue that it is not just a possibility of a brain drain occurring when citizens

emigrate or brain waste occurring when they stay home but rather a brain gain when they emigrate strategically and contribute to development in the homeland
