Reading Race Clare Bradford,2013-05-09 How do children's books relate to the cultures that produce them and how do they influence those cultures In *Reading Race* Clare Bradford looks at representations of Australia's indigenous peoples in texts for children She shows how these varying representations have helped to colour the attitudes beliefs and assumptions of different generations of Australians To what extent have children's books enabled readers to understand Aboriginal culture relations between Aboriginal and non Aboriginal people and relationships between Aboriginality and national identity Bradford draws on examples from popular and literary children's books of all genres fiction non fiction picture books and school texts She reveals that many children's books display the tensions and uncertainties inherent in relations between Aboriginal and non Aboriginal people Bradford also uncovers the different ideologies of race that have informed Australian children's texts from the nineteenth century to currently popular writers demonstrating cultural shifts in the representation of Aboriginality over time The result is a ground breaking and intelligent picture of how Australian children's books by both white and Aboriginal writers have negotiated the matter of race *Reading Race* will enhance the ways in which we come to read and understand the complex and delicate issues around Aboriginal white relations It will be an invaluable resource in the fields of post colonial studies Indigenous and Aboriginal studies literary and cultural studies and children's literature

Who Wrote the Bible? Richard Friedman,2019-01-15 A much anticipated reissue of *Who Wrote the Bible* the contemporary classic the New York Times Book Review called a thought provoking and perceptive guide that identifies the individual writers of the Pentateuch and explains what they can teach us about the origins of the Bible For thousands of years the prophet Moses was regarded as the sole author of the first five books of the Bible known as the Pentateuch According to tradition Moses was divinely directed to write down foundational events in the history of the world the creation of humans the worldwide flood the laws as they were handed down at Mt Sinai and the cycle of Israel's enslavement and liberation from Egypt However these stories and their frequent discrepancies provoke questions why does the first chapter in Genesis say that man and woman were made in God's image while the second says that woman was made from man's rib Why does one account of the flood say it lasted forty days while another records no less than one hundred And why do some stories reflect the history of southern Judah while others seem sourced from northern Israel Originally published in 1987 Richard Friedman's *Who Wrote the Bible* joins a host of modern scholars who show that the Pentateuch was written by at least four distinct voices separated by borders political alliances and particular moments in history then connected by brilliant editors Rather than cast doubt onto the legitimacy of the Bible Friedman uses these divergent accounts to illuminate a text that was written by real people Friedman's seminal and bestselling text is a comprehensive and authoritative answer to the question just who exactly wrote the Bible *Excel 2013 Bible* John Walkenbach,2013-02-05 Excel at Excel with the help of this bestselling

Through portraits of readers and their responses to texts, *Reading Practice* reconstructs the contours of the knowledge economy that shaped medicine and science in early modern England. *Reading Practice* tells the story of how ordinary people grew comfortable learning from commonplace manuscripts and printed books such as almanacs, medical recipe collections, and herbals. From the turn of the fifteenth century to the close of the sixteenth century, these were the books English people read when they wanted to attend to their health or understand their place in the universe. Before then, these works had largely been the purview of those who could read Latin. Around 1400, however, medical and scientific texts became available in Middle English while manuscripts became less expensive. These vernacular manuscripts invited their readers into a very old and learned conversation. Hippocrates and Galen weren't distant authorities whose word was law; they were trusted guides whose advice could be excerpted, rearranged, recombined, and even altered to suit a manuscript compiler's needs. This conversation continued even after the printing press arrived in England in 1476. Printers mined manuscripts for medical and scientific texts that they would publish throughout the sixteenth century, though the pressures of a commercial printing market encouraged printers to package these old texts in new ways. Without the weight of authority conditioning their reactions and responses to very old knowledge, and with so many editions of practical books to choose from, English readers grew into confident critics and purveyors of natural knowledge in their own right. Melissa Reynolds reconstructs shifting attitudes toward medicine and science over two centuries of seismic change within English culture, attending especially to the effects of the Reformation on attitudes toward nature and the human body. Her study shows how readers learned to be discerning and selective consumers of knowledge gradually through everyday interactions with utilitarian books. **Reading Lucan's Civil War** Paul Roche, 2021-09-09 Born in 39 C.E., the Roman poet Lucan lived during the turbulent reign of the emperor Nero.
