Reason Responsibility 14th Edition:

False Moves in Philosophy and Social Theory Patrick Murray, Jeanne Schuler, 2023-09-12 This book considers diverse philosophical topics unified by the identification of false moves commonly found in modern philosophy mainstream Anglo American philosophy and social theory The authors expose the sources of fundamental problems that recur in philosophy basic problems with what the authors call factoring philosophy Factoring philosophy fails to attend to the phenomenological task of determining when what is distinguishable is separable and when not Consequently factoring philosophy makes phenomenological mistakes false moves when it treats as separable what is only distinguishable Analytic philosophy is prone to false moves when it fails to recognize that phenomenology is the necessary complement to analysis There is nothing wrong with analysis we might as well give up thinking as give up analysis and nothing is wrong with the values prized by analytic philosophy As Hegel observed philosophizing requires above all that each thought should be grasped in its full precision and that nothing should remain vague and indeterminate Ultimately this book contends that false moves prevail in philosophical analysis and social theory when they neglect their phenomenological foundations *Moral Theory* Mark

Communist China Digest, 1962

Responsibility for Rationality Sebastian Schmidt, 2024-11-25 This book develops the foundations of an ethics of mind by investigating the responsibility that is presupposed by the requirements of rationality that govern our attitudes It thereby connects the most recent research on responsibility and rationality in a unifying dialectic How can we be responsible for our attitudes if we cannot normally choose what we believe desire feel and intend This problem has received much attention during the last decades both in epistemology and ethics Yet its connections to discussions about reasons and rationality have been largely overlooked The book has five main goals First it reinterprets the problem of responsibility for attitudes as a problem about the normativity of rationality Second it connects substantive and structural rationality by drawing on debates about responsibility Third it supports recent accounts of the normativity of rationality by explicitly defending the view that epistemic reasons and other right kind reasons are genuine normative reasons and it does so by drawing on recent discussions about epistemic blame Fourth it breaks the stalemate between rationalist and voluntarist accounts of mental

responsibility by proposing a hybrid view Finally it argues that being irrational can warrant moral blame thus revealing an unnoticed normative force of rational requirements Responsibility for Rationality is an original and essential resource for scholars and advanced students interested in connecting strands of normative theory within epistemology metaethics and moral psychology The Open Access version of this book was published with the support of the Swiss National Science Foundation Selections from China Mainland Magazines ,1962 *Equality, Responsibility, and the Law* Arthur Ripstein,2001-03-12 Examines responsibility and luck as these issues arise in tort law criminal law and distributive justice

Intention in Law and Philosophy Ngaire Naffine,Rosemary Owens,2019-05-24 This title was first published in 2001 Legal systems are posited on the assumption that people are rational intentional agents who can choose to follow or break the law This book connects the common interests of lawyers and philosophers in the meaning of intention and its relation to responsibility in legal moral and political contexts **Who Knew?** George Sher,2009-08-07 Unlike most other discussions of responsibility which focus on the idea that to be responsible agents must in some sense act voluntarily this book focuses on the relatively neglected idea that they must in some sense know what they are doing Because it integrates first and third personal elements this account is well suited to capture the complexity of responsible agents who at once have their own private perspectives and live in a public world *After the Crime* Martin S. Greenberg,R. Barry Ruback,2012-12-06 Analyzing the findings of 20 studies involving more than 5 000 people this book explores the decision making process of the crime victim in the immediate aftermath of victimization Using a broad range of innovative research techniques the authors assess the effects of rape robbery burglary and theft on individuals from diverse nationalities and ethnic backgrounds This work will be of value to people who work directly with crime victims and to researchers who are interested in the process of decision making under stressful circumstances **Antitrust Law Developments (sixth)** Jonathan M. Jacobson,2007 Rev ed of Antitrust law developments fifth c2002 **Rethinking Responsibility** K. E. Boxer,2013-02-07 This book explores moral responsibility and whether it is compatible with causal determinism Its author K E Boxer started out with deeply incompatibilist intuitions but became dissatisfied with the arguments that she and other contemporary incompatibilists marshalled in support of this view Rethinking Responsibility has evolved out of her search for a more adequate argument Boxer suggests that if incompatibilists are to be in a position to provide such an argument they must shift their attention away from metaphysics and back to what H L A Hart deemed the primary sense of the concept of moral responsibility viz the sense of liability To say that an agent is morally responsible for an action in this sense is to say that she satisfies the necessary causal and capacity conditions for desert of certain forms of response If incompatibilists are to show that among those conditions is a requirement for some form of ultimate responsibility incompatible with determinism they must first clarify their understanding of moral desert and the moral responses associated with attributions of responsibility The book examines different possible understandings of moral liability responsibility based on different possible accounts of the nature

of moral blame the moral desert of punishment and the relation between desert of moral blame and desert of punishment A focal point throughout the discussion is whether on any of the possible understandings moral responsibility would require agents to be ultimately responsible for their actions in a way incompatible with causal determinism Other issues discussed include what renders a defect a moral defect or a particular criticism a moral criticism whether moral obligations are act governing or will governing the connection between the moral reactive attitudes and the retributive sentiments the relevance of the capacity to participate in ordinary interpersonal relationships and whether it is possible to understand the moral desert of punishment in communicative terms Boxer concludes that incompatibilists face an unenviable choice either they must adopt an understanding of the moral desert of punishment that many find morally problematic or they must abandon incompatibilism

From Animals to Animats 14 Elio Tuci,Alexandros Giagkos,Myra Wilson,John Hallam,2016-08-09 This book constitutes the proceedings of the 14th International Conference on Simulation of Adaptive Behavior SAB 2016 held in Aberystwyth UK in August 2016 The 31 papers presented in this volume were carefully reviewed and selected from 45 submissions They cover the main areas in animat research including the animat approach and methodology perception and motor control learning and adaptation evolution and collective and social behavior

A Minimal Libertarianism Christopher Evan Franklin,2018-03-08 In this book Christopher Evan Franklin develops and defends a novel version of event causal libertarianism This view is a combination of libertarianism the view that humans sometimes act freely and that those actions are the causal upshots of nondeterministic processes and agency reductionism the view that the causal role of the agent in exercises of free will is exhausted by the causal role of mental states and events e g desires and beliefs involving the agent Franklin boldly counteracts a dominant theory that has similar aims put forth by well known philosopher Robert Kane Many philosophers contend that event causal libertarians have no advantage over compatibilists when it comes to securing a distinctively valuable kind of freedom and responsibility To Franklin this position is mistaken Assuming agency reductionism is true event causal libertarians need only adopt the most plausible compatibilist theory and add indeterminism at the proper juncture in the genesis of human action The result is minimal event causal libertarianism a model of free will with the metaphysical simplicity of compatibilism and the intuitive power of libertarianism And yet a worry remains toward the end of the book Franklin reconsiders his assumption of agency reductionism arguing that this picture faces a hitherto unsolved problem This problem however has nothing to do with indeterminism or determinism or even libertarianism or compatibilism but with how to understand the nature of the self and its role in the genesis of action Crucially if this problem proves unsolvable then not only is event causal libertarianism untenable so also is event causal compatibilism
