Managing Innovative Projects and Programs H. James Harrington,Sid Ahmed Benraouane,2022-07-15 It has been estimated that over 75% of the innovative projects that begin through the Innovation Management System IMS are either failures or they failed to produce the desired results The biggest wastes most medium to large size organizations face are the waste of money time reputation opportunity and income that these failures are costing them Following this book s recommendations could reduce this failure cost by as much as 70% The purpose of this book is to provide a step by step procedure on how to process a medium or large size project program or product using an already established IMS that considers the guidance given in ISO 56002 2019 Innovation Management Systems Standard Often the most complicated complex difficult and challenging system used in an organization is the IMS At the same time it usually is the most important system because it is the one that generates most of the value adding products for the organization and it involves most of the key functions within the organization The opportunity for failure in time and the impact on the organization is critical and often means the difference between success and bankruptcy Throughout this book the authors detail the high impact inputs and activities that are required to process individual projects programs products through the innovation cycle Although this book was prepared to address how medium to large projects programs and products proceed through the cycle it also provides the framework that can be used for small organizations and simple innovation activities Basically the major difference between large and small impact innovation projects is that the small projects can accept more risks require less formal documentation use simpler communication systems and require fewer resources It s important to remember that the

authors are addressing an existing IMS rather than trying to create an entirely new one Currently this is the only book geared for professionals responsible for managing innovative projects and programs using ISO 56002 2019 Innovation Management Innovation Management System Guidance to provide a comprehensive management strategy and step by step plan and ISO 56004 Innovation Management Assessment Guidance It provides a comprehensive analysis of what is required from the time an opportunity is recognized to the time the customer is using the innovative product The book also introduces a new Process modeling cloud service that allows you to drill down 5 levels from the system level to the job description level and includes free access to many of the book s best practice Process models *El-Hi Textbooks & Serials in Print*, 2005 ,2005 *Arts & Humanities Citation Index* ,1993 A multidisciplinary index covering the journal literature of the arts and humanities It fully covers 1 144 of the world s leading arts and humanities journals and it indexes individually selected relevant items from over 6 800 major science and social science journals **Subject Guide to Books in Print** ,1996
