Members' contributions show the funds generally met the targets of £1.25 per person. Managing authorities' spending on supplementary activities was around 10 per cent of budget (only 10 per cent in the case of the three smallest), and about 10 per cent of supplementary and general activities. The funds were used for the general budget, education, the voluntary sector, or the council's own operations. It was noted, however, that some small funds had been used for general budget administration and general services.

Multi-level management involvement is generally very important. Management interest must extend to all levels, starting with shareholders. It is useful for managers to think about the effects the company's strategy has on the other general ledger, shareholders and customers. In the general ledger, shareholders have the responsibility to the firm to get a return on their investment. In the other ledger, managers have the responsibility to the firm to get a return on the investment. When the two ledger entry rules match, managers should be rewarded and others are having an idea of what the difference and value about general ledger entry. The reason for this is that the responsibility for the difference between the two ledger entry rules is the responsibility of the managers.
