It lives up to its goal of appealing to both academic and professional readers with both academic depth and real insights and opportunities for the professional teacher to draw from. It presents its data and interpretations in a manner which does not avoid the issues revealed within the research but has an uplifting effect on the reader and leaves them feeling optimistic about the quality of History teaching in UK secondary schools. Robert Wyness, Student De Montfort University Leicester, UK. Why do we teach and learn about the past? How is history taught in schools? What are the influences on the way teachers teach and pupils learn about the past? History is one of the most ideologically disputed of school subjects. Over the past generation the subject has experienced fundamental changes in content, pedagogy and approach. This book is the first detailed account of the way history is taught in schools to be published for 30 years. Drawing on fieldwork in comprehensive schools and on research studies worldwide, the authors pose fundamental questions about the way teachers teach and learners learn. They consider its purposes on teaching about the past in a world of accelerating change. The book sets out to explore the realities of classroom history teaching and to offer pointers for the development of the subject in a new century.

*Literature for Young Adults* Joan L. Knickerbocker, James A. Rycik, 2019-08-28 Now in its second edition, this book explores a great variety of genres and formats of young adult literature while placing special emphasis on contemporary works with nontraditional themes, protagonists and literary conventions that are well suited to young adult readers. It looks at the ways in which contemporary readers can access literature and share the works they're reading and it shows teachers the resources that are available, especially online, for choosing and using good literature in the classroom and for recommending books for their students' personal reading. In addition to traditional genre chapters, this book includes chapters on literary nonfiction, poetry, short stories and drama, and film. Graphic novels, diversity issues and uses of technology are also included throughout the text. The book's discussion of literary language, including traditional elements as well as metafictional terms, enables readers to share in a literary conversation with their peers and others when communicating about books. This book is an essential resource for preservice educators to help young adults understand and appreciate the excellent literature that is available to them.
