

Research Paper Proposal Sample

A research proposal considers your overall topic ideas, your research question, your research process, and your sources and scaffolds what the next steps will be for the project. Many disciplines require written proposals before an experiment can be run, before a presentation can be made, before a seminar paper can be written. Research proposals can vary in length depending on the scale and scope of the project at hand. However, in general, all share certain conventions: framing of the project or contextualization or putting the project in context or conversation with other research; a tentative thesis or claim or hypothesis; an approach or methodology; target audience; tentative sources or references. Depending on the academic discipline, a research proposal may include other required features.

For example, the following is a one-page seminar paper proposal for a literature class:

Paper Proposal: 'You Looks Like Youse Yo' Own Daughter': Figuring (In)fertility and Maternity in *Their Eyes Were Watching God*

Although critical responses to Hurston's *Their Eyes Were Watching God* have focused extensively on both sexuality and images of fecundity in the text, analyses that fully address fertility and maternity in the novel are as strangely absent from the critical literature as the presumable fact of Janie's reproductive capacity is from the text itself. Unlike Nella Larsen's roughly contemporary novel *Quicksand*, Hurston not only seems to deny the notion that marriage is death for women, she also disrupts the traditional association of marriage with pregnancy/childbirth (McDowell xxi). It is unclear whether Hurston took this non-approach to Janie's fertility in the novel as a means of disequating marriage and childbirth, or simply because pregnancy and maternity did not figure in the story she wanted to tell. However, the novel's emphasis on fertility in nature and sexuality renders this textual absence particularly problematic.

The proposed paper will begin with an examination of the ample fertility imagery in the novel. Janie's early conflation of fertility in nature, sexual desire, and marriage will be discussed, followed by the role that sexuality plays in each of her marriages. Then, the textual absence of Janie's reproductive fertility will be addressed, as well as a discussion of whether this textual absence is evidence of the novel's failed realism, as some critics have suggested, or a byproduct of the idealization of the world of the novel. A short discussion of the trope of textual absence or elision of conception and pregnancy in the works of several African American women writers will also be included.

Although I have not yet fully formulated the theoretical framework I will use to account for the problematic treatment of Janie's fertility in the novel, the textual elements that I am planning to discuss will be the extended mule metaphor/imagery (with its implications of sterility) and the depiction of other maternal relationships in the novel (particularly those of Nanny and Leafy to both each other and to Janie). Finally, I will relate the treatment of maternity and fertility in the novel with the overarching theme of Janie's quest for fulfillment/selfhood/voice/independence/embodiment.

Several extensive searches of the critical literature addressing *Their Eyes* have failed to reveal any full-length articles addressing the textual absence of Janie's fertility. The articles listed below address various aspects of sexuality and sexual autonomy, marriage, and fertility imagery in the novel.

Using Rubrics for Performance-Based Assessment Todd

Stanley, 2021-10-03 Writing a rubric that can accurately evaluate student work can be tricky. Rather than a single right or wrong answer, rubrics leave room for interpretation and thus subjectivity. How does a teacher who wants to use performance-based assessment in this day and age of educational data and SMART goals find a way to reliably assess student work? The solution is to write clear rubrics that allow the evaluator to objectively assess student work. This book will show classroom teachers not only how to create their own objective rubrics which can be used to evaluate performance assessments but also how to develop rubrics that measure hard-to-assess skills such as leadership and grit and how to empower their own students to create rubrics that are tailored to their work.

Experiences and Research on Enhanced Professional Development Through Faculty Learning Communities Blankenship, Rebecca J., Wiltsher, Cheree Y., Moton, Brandon A., 2022-06-24

Faculty learning communities are a fairly new ideology that is gaining traction among educators and institutions. These communities have numerous benefits on professional development such as enhancing educator preparedness and learning. The possibilities of these communities are endless; however, further study is required to understand how these learning communities work and the best practices and challenges they face. *Experiences and Research on Enhanced Professional Development Through Faculty Learning Communities* shares the experiences and research related to the enhanced professional development received by university faculty and staff participating in a series of collaborative faculty learning communities. The book, using qualitative, quantitative, and mixed methodologies, considers educator experiences as participants in the faculty learning communities, what they learned, and how they applied and implemented best practices in their courses. Covering topics such as curricula, course design, and rubrics, this reference book is ideal for administrators, higher education professionals, program developers, program directors, researchers, academicians, scholars, practitioners, instructors, and students.

Writing Assignments Across University Disciplines Roger Graves, 2017-12-07 Writing Assignments Across the University Curriculum as a whole asks and answers these questions: What kinds of documents do students write in a wide range of university degree programs in Canada? How do instructors structure those writing assignments? That is, who is the audience for the assignments? Do students get formative feedback as they develop their documents? Do the patterns we found in a small liberal arts college (Graves, Hyland, and Samuels, 2010) occur in other kinds of universities? We took our cue from an article by Anson and Dannels (2009) who pointed us toward the idea that students experience a curriculum through their degree progress in an academic program. Consequently, we needed to map the writing assignments according to how different departments organized these degree programs. Results that were organized by curricular unit (departments, faculties, or colleges or programs) were more significant than general statistics because students would progress through these courses to a degree. Several chapters in the book describe how this kind of curricular mapping provided a spark for curricular reform in Engineering Education and an entire small university. The last two

chapters report on the instructors perspective on their assignments what they were intending to do and why they both resisted and engaged in curricular discussions
