

COMMON SENSE, EASY TO USE AS PROBLEM SOLVING

Why AS?

AS is actually a method for PDCA thinking. It is actual to PDCA's methodology. AS's genius comes from its effectiveness. After its effectively thinking and use, an AS can be taught to anyone in a company. With everyone's participation, you create a company full of problem solvers, who create an incremental improvement of processes and overall reduction of waste.

AS is a problem-solving technique used in Lean organization to keep track of and fully flesh-out the solutions to problems.

As a problem solver, you can use AS to solve any problem in your organization.

Time Spent

PDCA stands for Plan, Do, Check, Act. We most often use this idea during kaizen activities. It involves taking a planned approach to change and problem solving where all details are considered. It is well known in Lean that the best executed improvement actions can be traced back to thorough planning. Sub-par planning can lead to poor processes.

Plan

How does this relate to the business plan? How does the creation of an action plan benefit the overall plan? How will this plan be meaningful to all levels of the organization?

Do

The "Do" answers the "what", "how" and "who" for each part of your organization, effectively bringing everyone together.

Check

Review all measurements and make notes on what has- or hasn't worked.

Act

Acting will enable you to make necessary adjustments to plans and priorities to ensure the success of strategic breakthroughs.

Continuing to expand on what has worked in the other steps. The cycle continues the next day, the next week, the next month, the next year.
