

QUICK GUIDE FOR GRANT APPLICATIONS

(Revised September 2018)

INTRODUCTION

The guide is organized according to the major sections of the NSF 424 (or PHC200) Grant Application Instructions. Each section is described, and a checklist is provided detailing what that section should cover. In addition, suggestions are included to enhance an application's success. The checklists are not exhaustive, but rather are designed to jog the application writer's memory and ensure completeness. This document in no way obviates the need for an inexperienced applicant to seek further advice from experienced colleagues or from appropriate NSC program personnel.

PLANNING YOUR APPLICATION

Several key issues should be considered before, during, and after your application is written.

1. Before you begin writing your grant application, familiarize yourself with the new [NSF 424 Application Guide](#) for electronic applications and all the requirements and certifications. See [NSF Forms and Applications](#) for other types of required forms and applications, including the PHC 200 application for multi-component applications.
2. The submission of electronic applications to NSF involves the interaction between two systems: Grants.gov ([https://grants.gov](#)) and the NSF eFSA Commons ([https://commons.nsf.gov/commons](#)). Individual investigators do not need to register with the Grants.gov system; however, you must be a registered Commons user to submit an application or be included as a SeniorKey Person. For more information, see [Electronic Submissions](#).
3. All applications must be submitted in response to a [Funding Opportunity Announcement \(FOA\)](#). The NSF has developed Parent FOAs ([https://nsf.gov/pubs/foas/pubs/parent/foas.html](#)) for use by applicants who wish to submit unsolicited investigator-initiated RCI applications and other common grant mechanisms. In addition, NSF publishes FOAs for specific [Request for Applications \(RFA\)](#) and [Program Announcements \(PA\)](#) that identify special research opportunities. Responding to such an FOA ensures that the correct application package is used and enables NSF to receive the application from [Grants.gov](#). FOAs can be found at [Grants.gov/PHC](#) for all government agencies and in the [NSF Guide for Grants and Contracts](#). If you are submitting in a specific RFA or PA, read the announcement in detail to be sure your application will be responsive to the announcement.
4. The deadlines for NSF grant applications depend on the grant mechanism. See schedule of standard due dates on [https://grants.nsf.gov/grants/submit/submissionschedule.htm](#). For new RCI applications, February 5, June 5, and October 5 are the due dates. March 5, July
