for Children and Young People is the definitive guide for all nursing and healthcare students and professionals caring for children and young people. Designed to meet the 2010 NMC competency standards for pre-registration nurses, the textbook supports you through the process of caring for children and young people with varied needs and conditions across all healthcare settings. A practical patient-centred approach is taken throughout, with the voices of children, their families, and their carers used to tie theoretical knowledge to the real experience of providing care. The inclusion of the latest research and health and social care policies ensures that you are fully in line with the latest clinical practice, whilst the book's activities and exercises allow you to regularly check your understanding and develop confidence during your journey from student to nursing professional.

Main features:

- Course Focused Approach: pedagogy and content designed specifically for all three years of the child nursing degree programme.
- Contemporary Content: research, notes, features, and policy integrated throughout to give you instant access to the latest evidence-based practice.
- Illustrated Throughout: this highly accessible text regularly uses pictures and diagrams to highlight key issues.
- Voices: include authentic experiences of children, young people, parents, carers, and professionals to help develop a patient-focused attitude to care.
- Pertinent A/P: includes coverage of all relevant anatomy and physiology for child and young person nursing courses.
- Practice Guidelines: provide practical guidance on everyday procedures for your quick reference.
- Activities and Answers: allow you to check your knowledge and build confidence.
- Specialist Authors: each chapter is written by leading experts in each area.

Essential Nursing Care for Children and Young People is the ideal main textbook for all undergraduate child and young person nursing students, as well as professionals wanting to ensure they are using the latest practice. This text is also relevant to any student or professional involved in the health and social care of children and young adults.

[A Research Guide to Cartographic Resources](#) Eva H. Dodsworth, 2018-09-22

The interdisciplinary uses of traditional cartographic resources and modern GIS tools allow for the analysis and discovery of information across a wide spectrum of fields. *A Research Guide to Cartographic Resources* navigates the numerous American and Canadian cartographic resources available in print and online, offering researchers, academics, and students with information on how to locate and access the large variety of resources, new and old. Dozens of different cartographic materials are highlighted and summarized, along with lists of map libraries and geospatial centers and related professional associations. *A Research Guide to Cartographic Resources* consists of 18 chapters, two appendices, and a detailed index that includes place names and libraries structured in a manner consistent with most reference guides, including cartographic categories such as atlases, dictionaries, gazetteers, handbooks, maps, plans, GIS data, and other related material. Almost all of the resources listed in this guide are categorized by geography down to the county level, making efficient work of the type of material required to meet the information needs of those interested in researching place-specific cartographic-related resources. Additionally, this guide will help those interested in not only developing a comprehensive collection in these subject areas but also get an understanding of what materials are being collected and housed in specific map libraries, geospatial

centers and their related websites Of particular value are the sections that offer directories of cartographic and GIS libraries as well as comprehensive lists of geospatial datasets down to the county level This volume combines the traditional and historical collections of cartography with the modern applications of GIS based maps and geospatial datasets **The Criminal Act** M. Andresen,G. Farrell,2015-01-29 This volume provides a unique collection of essays in honour of the work of Marcus Felson and his notable contribution to routine activity theory environmental criminology and the discipline more broadly Chapter 5 of this book is open access under a CC BY license
