Minority Students in Special and Gifted Education National Research Council, Division of Behavioral and Social Sciences and Education, Board on Behavioral, Cognitive, and Sensory Sciences, Committee on Minority Representation in Special Education, 2002-08-30 Special education and gifted and talented programs were designed for children whose educational needs are not well met in regular classrooms From their inceptions these programs have had disproportionate representation of racial and ethnic minority students What causes this disproportion Is it a problem Minority Students in Special and Gifted Education considers possible contributors to that disparity including early biological and environmental influences and inequities in opportunities for preschool and K 12 education as well as the possibilities of bias in the referral and assessment system that leads to placement in special programs It examines the data on early childhood experience on differences in educational opportunity and on referral and placement The book also considers whether disproportionate representation should be considered a problem Do special education programs provide valuable educational services or do they set students off on a path of lower educational expectations Would students not now placed in gifted and talented programs benefit from raised expectations more rigorous classes and the gifted label or would they suffer failure in classes for which they are unprepared By examining this important problem in U S education and making recommendations for early intervention and general education as well as for changes in referral and assessment processes Minority Students in Special and Gifted Education will be an indispensable resource to educators throughout the nation as well as to policy makers at all levels from schools and school districts to the state and federal governments

The Handbook of Language Assessment Across Modalities Tobias Haug, Wolfgang Mann, Ute Knoch, 2021-12-21 The identification of language problems and subsequent evaluation of interventions depend in part on the availability of useful and psychometrically robust assessments to determine the nature and severity of their problems and monitor progress The purpose of these assessments may be to measure a child

s language proficiency that is how they perform relative to other children and whether they have the language level expected and needed for schooling or they may have a specifically clinical purpose to identify the occurrence and nature of a disorder The purpose of assessment is key to the aspects of language targeted in an assessment and the methods used to target these In the case of spoken English there are many language assessments ranging from broad language tests to more narrowly focused measures reflecting the complexity of the language system and its use What Teachers Need to Know about

Numeracy Peter S. Westwood, Peter Westwood, 2008 There is an increasing need for numeracy skills in all aspects of life This book explores the issues that are emerging regarding the teaching of these skills beginning with preschool and the early years of primary school through to adults with poor numeracy skills It draws on research and relevant literature from several different countries to provide a comprehensive overview of the subject and contains many links to other sources of information and additional resources Exemplary Science in Grades PreK-4 Robert Eugene Yager, 2006 The 14 programs

are real life examples you can learn from in carrying out reforms in teaching assessment professional development and content When both teachers and students are enthused curious and involved science becomes central to the lives of students

Connecting Kids to History with Museum Exhibitions D Lynn McRaney, John Russick, 2016-09-16 Kids have profound and important relationships to the past but they don't experience history in the same way as adults For museum professionals and everyone involved in informal history education and exhibition design this book is the essential new guide to creating meaningful and memorable connections to the past for children This vital museum audience possesses many of the same dynamic qualities as trained historian curiosity inquiry empathy for the human experience yet traditional history exhibitions tend to focus on passive looking in the galleries giving priority to relaying information through words D Lynn McRaney and John Russick bring together top museum professionals to present state of the art research and practice that respects and incorporates kids developmental stages and learning preferences and the specific ways in which kids connect to history They provide concrete tools for audience research and evaluation exhibition development and design and working with kids as creative consultants The only book to focus comprehensively on history exhibits for kids Connecting Kids to History With Museum Exhibitions shows how to enhance the experiences of a vitally important but frequently the least understood museum audience

Learning on Other People's Kids Barbara Torre Veltri, 2010-05-01 This work captures the voices of TFA novices who offer candid accounts of their experiences in Becoming Teach For America Teachers Previously unanswered questions are addressed Why do recent college graduates apply to Teach For America How are they recruited trained and hired How do they learn the culture s of the community schools grade level curriculum and children they teach Is there a culture of the TFA organization What recommendations do they offer to TFA donors policy makers future corps members and the public Woven into this book are perspectives from mentors who worked alongside TFAers administrators who hired them corporate C E O s who supported them and policies both local and national that privileged TFA over non TFA teachers Finally

a compelling series of eyewitness narratives introduces each chapter's theme documented from the author's own Notes from the Field. These accounts offer rich descriptive vignettes that present the challenges TFAers faced as they occurred. Schools reflect the multitiered and often non-level playing field that comprises America's educational landscape. Learning on Other People's Kids: Becoming a Teach For America Teacher provides readers a glimpse into the corps member experience in a rare ethnographic account.

Nonfiction Matters Stephanie Harvey, 2023-10-10 When we open the gates to nonfiction inquiry, we open our thinking and expect the unexpected, making reading discoveries, research discoveries, and writing discoveries on our way. Nonfiction Matters offers teachers the tools to help students explore nonfiction and dig deep to reach more complete understanding of the real world and report these insights in a compelling manner. Stephanie Harvey shows how students can read expository text, engage in research, and write authentic nonfiction that is captivating, visual, and full of voice. The inquiry projects she describes require in-depth learning, topic selection, question development, research exploration, reading for content, organization, synthesis, writing to convey meaning, and presenting findings—all skills that develop independent thinkers who know how to make decisions, solve problems, and apply their knowledge insightfully. Full of practical suggestions to help you bring nonfiction into your curriculum, Nonfiction Matters presents strategies for understanding expository text and conducting meaningful research, offers ideas for organizing and writing accurate, effective nonfiction from idea to finished presentation, advances the importance of teacher modeling and guided practice in instructional delivery, provides a list of inquiry tools and resources, both print and electronic, suggests ways to facilitate project-based learning, and assesses the projects as they develop. Includes bibliographies of nonfiction children's books by subject and genre and lists of recommended magazines. Why is nonfiction almost a guaranteed success? The key to teaching with nonfiction is passion for children: are passionate inquirers, and nonfiction fuels their curiosity and their demand for knowledge and understanding of the world.
