It works on the development implementation of projects, which contribute to local development, sustainable use and conservation the aquatic ecosystems and resources in Bolivia. The organization facilitates the collaboration between local communities, investigators, national authorities and private institutions. In its vision the aspect of local people is very important. Therefore, in all projects local people are taken into account. By respecting customs and traditional knowledge and without danger for the environment, Faunagua tries to improve the quality of life of local populations (indigenous communities, rural people and fishermen).

An overview of the projects of Faunagua:

- The development of strategies for sustainable exploitation, management and conservation of hydrobiological resources and fishery;
- Studies on the biology and ecology of fauna (*Pteronura brasiliensis*, *Inia boliviensis*)
