Planning Application Supporting Documents:

Town Planning in Hong Kong Lawrence Wai-chung Lai, 1999-05-01 As Hong Kong town planning legislation develops there is an ever growing demand for a better understanding of the rules and principles behind the discretionary decisions of the Town Planning Board regarding planning applications *Town Planning in Hong Kong A Review of Planning Appeals* is a thorough analysis of 50 unreported cases of the Town Planning Appeal Board on appeals against the Town Planning Board decisions concerning planning applications and review This book goes beyond the usual requirements of books on case and materials it systematically documents the facts and arguments presented in the decisions distills the reasons and rules behind them and comments on each in detail It also provides a comparative study of all the cases from the perspective of town planning and economics This book will be of great value to developers planners lawyers and professionals who work in the development and conservation of lands in Hong Kong *Town Planning Practice* Lawrence Wai-Chung Lai, Ki Fong, 2000-07-01 This book is the first systematic attempt to introduce the current practice and statistics of town planning in Hong Kong Part I gives an analytical account of the practical and ideological context discusses design principles and describes procedures of town planning with particular reference to change in use The emphasis is on skills of plan interpretation and an appreciation of the intellectual disposition of planners and various objective constraints confronting them Part II is the first of its kind in presenting and analysing the statistics of planning applications for 11 zones from 1978 to 1998 The success rates of planning applications as well as the main reasons used by the Town Planning Board for rejecting planning applications are elucidated *Flexibility and Commitment in Planning* D. Thomas, M. Tvrđý, 2012-12-06 This book is about the ways in which two western European countries attempt to cope with the changing demands of urban development In particular it is concerned with the differences in approach of the Dutch and English planning systems and the contrasting ways in which they are used to guide promote and control development The book results from a research study in which members of staff at Delft of Technology and Oxford Polytechnic compared local planning and University development in the Netherlands and England The aim was to investigate ways in which development was promoted and controlled under different planning systems The research was subsequently developed along two converging lines One was an examination of over twenty case studies of plan making and the control of development in the cities of Leiden and Oxford The other was a study of the two planning systems and the ways in which the respective approaches to planning were seen to relate closely to the contrasting legal and administrative systems and differences in development practice The convergence of the two lines of enquiry produced a tension between empirical observations and theoretical supposition which led to a fruitful development of ideas about the nature of the two planning systems and how they promote and control development *Planning Support Systems in Practice* Stan Geertman, John Stillwell, 2012-11-02 *Planning Support Systems Technologies that are Driving Planning* Michael Batty Centre for Advanced Spatial Analysis CASA University College London 19 Torrington Place London

WC 1 E 6BT United Kingdom I had always thought the term Planning Support Systems abbreviated to PSS had been coined by the father of land use modelling Britton Harris in his article Beyond Geographic Information Systems computers and the planning professional published in the Journal of the American Planning Association in 1989 Harris 1989 Until I asked him that is In a response to a paper he gave to the Urban and Regional Information Systems Association URISA in the summer of 1987 he told me that someone in the audience who he cannot quite remember actually coined the term referring to planning support systems as that constellation of digital techniques such as GIS which were emerging to support the planning process In fact the predecessor term decision support systems DSS from which this unknown originator obviously defined PSS by analogy was coined as far back as the late 1970s in the management literature for a loose assemblage of techniques usually computer based which aided management decisions The term slowly entered the geographical lexicon as spatial decision support systems SDSS and this is probably first attributable to Lew Hopkins and Mark Armstrong who used it in a paper published in AutoCarto 7 in 1985 Hopkins and Armstrong 1985 Understanding Geographies of Polarization and Peripheralization Thilo Lang, Sebastian Henn, Kornelia Ehrlich, Wladimir Sgibnev, 2015-08-31 This book presents a multifaceted perspective on regional development and corresponding processes of adaptation and response focusing on the concepts of polarization and peripheralization It discusses theoretical and empirical foundations and presents several compelling case studies from Central and Eastern Europe and beyond **The NPPF Handbook** Gregory Jones KC, Simon Neate, 2025-09-04 Promising 1.5 million new homes by 2029 the new Labour government has made increased house building a central part of its growth agenda The National Planning Policy Framework NPPF is key to securing that If you want to really understand English planning policy and whether it is likely to achieve a better supply of homes economic growth less ugly more functional and higher quality places better health and well being and more biodiversity this Handbook will be invaluable In clear language it examines the meaning of the NPPF in a comprehensive and systematic way by reference to case law and appeal decisions The Handbook provides practical guidance on whether a policy paragraph has changed in substance or just its numbering Users will be able to assess whether previous authorities are still relevant Expertly co edited by Gregory Jones KC and Simon Neate MRTPI the book provides a unique commentary from a blended team of experienced specialist planning barristers from the leading planning chambers of Francis Taylor Building and planning transport and economics consultants from the international professional services firm WSP This definitive single volume guide to the NPPF will be essential reading for legal practitioners and professionals working in the field of planning **Good Practice Guide** Colin Haylock, 2021-03-04 How do you obtain permission How can you satisfactorily tackle objections How can you convince planning officers of the value of your work Drawing on substantial experience from both applicant and local planning authority perspectives this book provides tactics and practical steps to help architects secure early validation of applications and successful outcomes It is a practical guide to understanding the planning system and maximizing the potential for

successful outcomes Readers will develop a greater understanding of the principles that are vital in the preparation and negotiation of applications against the very complex detail of regulatory arrangements Property Development David Isaac, John O'Leary, Mark Daley, 2016-05-27 The fully revised and updated third edition of this textbook provides a comprehensive guide to the property development process taking readers from initial project evaluation to planning funding construction and disposal The last ten years have seen regional planning apparatus swept away and replaced by new neighbourhood plans and more prominence is now given to financial viability in planning policy and decision making The uncertainty of the financial crisis and the associated housing crash have given way to a new wave of commercial and housing development and in this period of growth it is more important than ever to be aware of the risks and opportunities inherent in the property market This book is an ideal companion for students on courses in estate management land economics property development real estate surveying construction planning and related subjects The book will also have value for practitioners in any of these fields who as part of their CPD obligations may be looking to refresh and update their knowledge New to this Edition New chapters on planning and the sustainability agenda reflecting recent changes and the increasing centrality of these topics in modern development Exploration of crucial emerging themes such as development viability and affordable housing the impact of the Community Infrastructure Levy sensitivity testing risk transfer and the limitations of development appraisal methods New self assessment questions with model answers on the book's companion website

The Architect in Practice David Chappell, Michael H. Dunn, 2015-12-02 Throughout its many editions *The Architect in Practice* has remained a leading textbook used in the education of architects While the content of the book has developed the message and philosophy has remained constant to provide students of architecture and young practitioners with a readable guide to the profession outlining an architect's duties to their client and contractor the key aspects of running a building contract and the essentials of management finance and drawing office procedure The eleventh edition follows in that tradition The text has been brought up to date to ensure it follows the new RIBA Plan of Work 2013 as the guide to the architect's workflow In addition a number of changes to standard forms of contract were made with the publication of the JCT 2011 suite of contracts and the RIBA Standard Form for the Appointment of an Architect 2010 2012 Revision These new forms are fully covered In addition the opportunity has been taken to reorganise the layout so that the content flows in a way that is more consistent with current architectural practice and to deal with the increasing use of BIM The eleventh edition of *The Architect in Practice* continues to provide the guidance and advice all students and practising architects need in the course of their studies and in their profession Planning Law and Practice in Northern Ireland Stephen McKay, Michael Murray, 2022-10-24 Each of the jurisdictions within the United Kingdom is constantly refining the operational characteristics of its planning system and while there are some common practices there are also substantive divergences In each territory the planning template is shaped within a dynamic political and legal context and thus students and practitioners require an

accessible in depth and up to date literature dealing with this matter The multi disciplinary contributors to this expanded Second Edition of Planning Law and Practice in Northern Ireland explore the progression of planning within the region and discuss prominent facets of contemporary development management development plans environmental law property law and professional practice Consideration is given to the consequences of Brexit for planning in Northern Ireland devolved government institutional structures for planning and the post 2015 emergent performance of local authorities in this arena The book makes an important contribution to the wider literature in this field and with its extensive citing of statutes and cases provides an essential resource for students planning practitioners and researchers
