Shaping the Bar Joan Howarth, 2022-12-13 The comprehensive source on attorney licensing and how to reform it In Shaping the Bar Joan Howarth describes how the twin gatekeepers of the legal profession law schools and licensers are failing the public Attorney licensing should be laser focused on readiness to practice law with the minimum competence of a new attorney According to Howarth requirements today are both too difficult and too easy Amid the crisis in unmet legal services record numbers of law school graduates disproportionately people of color are failing bar exams that are not meaningful tests of competence to practice At the same time after seven years of higher education hundreds of thousands of dollars of law school debt two months of cramming legal rules and success on a bar exam a candidate can be licensed to practice law without ever

having been in a law office or even seen a lawyer with a client Howarth makes the case that the licensing rituals familiar to generations of lawyers unfocused law degrees and obsolete bar exams are protecting members of the profession more than the public Beyond explaining the failures of the current system this book presents the latest research on competent lawyering and examples of better approaches This book presents the path forward by means of licensing changes to protect the public while building an inclusive diverse competent ethical profession Thoughtful and engaging Shaping the Bar is both an authoritative account of attorney licensing and a pragmatic handbook for overdue equitable reform of a powerful profession

Analytics and Dynamic Customer Strategy John F. Tanner, Jr., 2014-06-17 Key decisions determine the success of big data strategy Dynamic Customer Strategy Big Profits from Big Data is a comprehensive guide to exploiting big data for both business to consumer and business to business marketing This complete guide provides a process for rigorous decision making in navigating the data driven industry shift informing marketing practice and aiding businesses in early adoption Using data from a five year study to illustrate important concepts and scenarios along the way the author speaks directly to marketing and operations professionals who may not necessarily be big data savvy With expert insight and clear analysis the book helps eliminate paralysis by analysis and optimize decision making for marketing performance Nearly seventy five percent of marketers plan to adopt a big data analytics solution within two years but many are likely to fail Despite intensive planning generous spending and the best intentions these initiatives will not succeed without a manager at the helm who is capable of handling the nuances of big data projects This requires a new way of marketing and a new approach to data It means applying new models and metrics to brand new consumer behaviors Dynamic Customer Strategy clarifies the situation and highlights the key decisions that have the greatest impact on a company s big data plan Topics include Applying the elements of Dynamic Customer Strategy Acquiring mining and analyzing data Metrics and models for big data utilization Shifting perspective from model to customer Big data is a tremendous opportunity for marketers and may just be the only factor that will allow marketers to keep pace with the changing consumer and thus keep brands relevant at a time of unprecedented choice But like any tool it must be wielded with skill and precision Dynamic Customer Strategy Big Profits from Big Data helps marketers shape a strategy that works

Matryoshka feature selection Method 2 Program 3 that splits microarray into many SMs Program4 can split microarray into many BGSs Then the wide columnLSD Revolution 0 such as microarray np is found to have several Matryoshka dolls including SM up to BGS p Theory3 shows the surprising results of six ordinary data re analyzed by Theory1 and Theory2 knowledge Essence of Theory3 is described by using cephalopelvic disproportion CPD data RIP discriminates CPD data 240 19 and finds two misclassifications unique for cesarean and natural born groups CPD238 omitting two patients becomes LSD which is the first case selection method Program4 finds BGS 14 vars the only variable selection method for Theory3 32 25 models including BGS become LSD among 219 1 models Because Program2 confirms BGS has the minimum average error rate BGS is the most compact and best model satisfying Occam s Razor With this book physicians obtain complete diagnostic results for disease and engineers can become a true data scientist by obtaining integral knowledge of statistics and mathematical programming with simple programs

Productivity in Higher Education Caroline M. Hoxby, Kevin Stange, 2020-01-10 How do the benefits of higher education compare with its costs and how does this comparison vary across individuals and institutions These questions are fundamental to quantifying the productivity of the education sector The studies in Productivity in Higher Education use rich and novel administrative data modern econometric methods and careful institutional analysis to explore productivity issues The authors examine the returns to undergraduate education differences in costs by major the productivity of for profit schools the productivity of various types of faculty and of outcomes the effects of online education on the higher education market and the ways in which the productivity of different institutions responds to market forces The analyses recognize five key challenges to assessing productivity in higher education the potential for multiple student outcomes in terms of skills earnings invention and employment the fact that colleges and universities are multiproduct firms that conduct varied activities across many domains the fact that students select which school to attend based in part on their aptitude the difficulty of attributing outcomes to individual institutions when students attend more than one and the possibility that some of the benefits of higher education may arise from the system as a whole rather than from a single institution The findings and the approaches illustrated can facilitate decision making processes in higher education
