The Regulation of Megabanks Katarzyna Parchimowicz, 2022-11-22 Global systemically important banks G-SIBs are the largest most complex and in the event of their potential failure most threatening banking

institutions in the world The Global Financial Crisis GFC was a turning point for G SIBs many of which contributed to the outbreak and severity of this downturn The unfolding of the GFC also revealed flaws and omissions in the legal framework applying to financial entities In the context of G SIBs it clearly demonstrated that the legal regimes both in the USA and in the EU grossly ignored the specific character of these institutions and their systemic importance complexity and individualism As a result of this omission these megabanks were long treated like any other smaller banking institutions Since the GFC legal systems have changed a lot on both sides of the Atlantic and global and national lawmakers have adopted new rules applying specifically to G SIBs to reduce their threat to financial stability This book explores whether the G SIB specific regulatory frameworks are adequately tailored to their individualism in order to prevent them from exploiting overly general rules as they did during the GFC Analyzing the specific character and individualism of G SIBs in relation to their history normal functioning as well as their operations during the GFC this book discusses transformation of banking systems and the challenges and opportunities G SIBs face such as Big Tech competitors climate related requirements and the COVID 19 pandemic Taking a multidisciplinary approach which combines financial aspects of operations of G SIBs and legal analysis the book describes G SIB oriented legal frameworks of the EU and the USA and assesses whether G SIB individualism is adequately reflected analyzing trends in supervisory action when it comes to discretion in the G SIB context all in order to contribute to the ongoing discussions about international banking law its problems and potential remedies to such persistent flaws

Studies & International Business Dheeraj Kumar Singh, **The Future of the Professions** Richard Susskind, Daniel Susskind, 2022-03-31 This book predicts the decline of today's professions and introduces the people and systems that will replace them. In an internet-enhanced society according to Richard Susskind and Daniel Susskind, we will neither need nor want doctors, teachers, accountants, architects, the clergy, consultants, lawyers, and many others to work as they did in the 20th century. *The Future of the Professions* explains how increasingly capable technologies from telepresence to artificial intelligence will place the practical expertise of the finest specialists at the fingertips of everyone, often at no or low cost and without face-to-face interaction. The authors challenge the grand bargain, the arrangement that grants various monopolies to today's professionals. They argue that our current professions are antiquated, opaque, and no longer affordable, and that the expertise of their best is enjoyed only by a few. In their place, they propose five new models for producing and distributing expertise in society. The book raises profound policy issues, not least about employment; they envisage a new generation of open-collared workers, and about control over online expertise, they warn of new gatekeepers in an era when machines become more capable than human beings at most tasks. With a new preface exploring recent critical developments, this updated edition builds on the authors' groundbreaking research into more than a dozen professions. Illustrated with numerous examples from each, this is the first book to assess and question the relevance of the professions in the 21st century.

Multisensory Human-Food Interaction Carlos Velasco, Anton Nijholt, Kasun Karunanayaka, 2018-07-26 Our food experiences can be significantly influenced by both intrinsic and extrinsic multisensory information. Therefore, it is crucial to understand and apply the principles that govern the systematic connections that exist between the senses in the context of Human Food Interaction (HFI). In our Research Topic, namely Multisensory Human Food Interaction (MHFI), several studies that consider such connections in the context of HFI are presented. We also have contributions that focus on multisensory technologies that can be used to share and reproduce specific HFIs. This eBook, which resulted from the Research Topic, presents some of the most recent developments in the field of MHFI. In particular, it consists of two main sections and corresponding articles. The eBook begins with the Editorial, which provides an overview of MHFI. Then, it includes six articles that relate to principles in MHFI and three on technologies in MHFI. We hope that the different contributions featured here will support future developments in MHFI research.

One Step Ahead David Sally, 2020-05-05 There's been a revolution in negotiating tactics. The world's best negotiators have moved beyond *How to Win Friends Influence People* and *Getting to Yes*. For over twenty years, David Sally has been teaching the art of negotiation at leading business schools and to executives at top companies. Now he delivers the proven, clear, actionable insights you need to stay competitive in an ever-changing marketplace. *One Step Ahead* offers the fundamental wisdom that elevates the sophisticated negotiator above everyone else. Readers will gain the advantage in everything from determining when to negotiate and deciphering a game strategically to understanding which personality traits matter, why emotions are not necessarily to be avoided, and how to be tough and fair.

You ll learn to be round on the outside and square on the inside how to command the idiom why to avoid bumping into the furniture and how to achieve mastery of the word and the number While all of life is not a negotiation Sally says a negotiation incorporates all of life One Step Ahead is for anyone and everyone who bargains parents manages buys sells emotes and engages Based on cutting edge studies and real world results and drawing parallels to everything from the NBA to the corner con game to Machiavelli Xi Jinping and Barack Obama One Step Ahead upends conventional wisdom to make sure that you have what it takes to stay one step ahead no matter whom you are facing across the table Exploring Consumers'
