

Profile of a good essay

A general note on academic writing conventions

Academic writing is bounded by strong conventions, some of which are common across academic schools and subjects, whilst others are discipline-specific. Some may be more to do with departmental protocols and therefore need checking in specific settings. Many academic conventions also have a strong cultural component (international students should bear this in mind and check out their former experience against expectations here)

Having said this, even within formal academic writing there is room for individual style and some scope for compromise between academic protocols and personal preferences. In the early stages of your undergraduate studies though, and until you develop confidence in your academic writing, you should err on the side of the former.
