

SAMPLE ABSTRACTS

Global Learning

During spring semester, I studied abroad on exchange at the Otto-Friedrich-University in Bamberg, Germany. I had studied German for five years in high school and two years in college, and I wanted to study in Germany in order to achieve the academic, professional and personal goals I had set for myself. I was a German major and wanted to achieve fluency in my language skills. Bamberg also offers a wider variety of classes on German topics than any American university could, and these classes would supplement my coursework at USC. As a future German teacher, I wanted to get to know the country and its culture better by travelling as much as possible, in order to enhance my future lessons with cultural knowledge and first-hand experiences. The experience was personally significant because, at the age of 20, I had never left the country and knew that I could not grow without distancing myself from all that was familiar to me. The five months I spent there were a period of growth, exploration, and understanding. My German has improved significantly and I am able to function at a much more advanced linguistic level than before my experience. I met many Germans and travelled to every region of Germany, visiting large cities and small towns, and I feel competent in my ability to convey knowledge of the culture to future students. I also feel that I know myself much better than before the experience: my limits but also my capabilities.

Community Service

A local town has decided to replace the community's water supply. This decision was driven by problems related to the quality and quantity of the current water supply. As a class we were asked to research and develop three proposals about what to do with the old reservoir – taking into account voices and thoughts from community members. Additional information from engineers and scientists about the nature of the dam's structural problems and the cost of repair would also be incorporated into our final recommendations. Through various methods of research and interviews (community round tables, public meetings, and interviews with community members, engineers, and scientists) we constructed three different proposals that included research on the economic, environmental, and community impact. Our final recommendations included: complete repair of the dam, creation of a lakeside park, and drainage of the reservoir and construction of a shopping mall. We learned a great deal about the complexities and importance of working together (different perspectives and skills) in conjunction with the community members to create something that was useful to the community. This project had a significant impact on the way each of us in the class view what it means to be an active participant in our own communities. The impact this project had on our class was invaluable – hands on experience while finding solutions to a real community problem.

National Fellowships

As an Anthropology major with plans to become a doctor treating Hispanic patients, I applied for a Rotary Academic-Year Ambassadorial Scholarship to the Universidad de Guadalajara. The goals of Rotary International are ones that are congruent with my own professional aspirations, and their international service projects appeal to my interest in public health. Because the scholarship is ambassadorial in nature, the experience will increase my adaptability, ability to establish rapport, and overall confidence working with people, translatable to my career in medicine. The scholarship would enable me to spend a year studying Spanish to work toward fluency. Using the Office of Fellowships and Scholar Programs, and later, my sponsoring Rotary Club (Forest Acres), I was able to submit a completed application and interviewed for the scholarship at the district level. In order to submit the application, several reviews and revisions of my essays were completed, as well as preparation for the August interview. The process of applying for the Rotary helped me learn more about my proposed country of study, but it also helped refine my perspectives and views of my own career plans. I was able to sharpen both my oral and written communication skills, and my mock interview prepared me for the district interview.
