Werder Sargent, Ann E. Smejkal, 2000 **Action Research From Concept to Presentation: A Practical Handbook to Writing Your Master's Thesis** Peter K. Lynch EdD, Ryan C. Welch, MS, 2014-07-03 Perhaps the most daunting graduate school requirement is the development of an action research Master's thesis. This capstone task requires unprecedented amounts of time, energy, and verbiage. Designed to take stress out of the thesis writing equation, this student-friendly comprehensive handbook glides the reader through a 28-step process from developing a focal topic to defending a scholarly thesis. Framing each chapter as a one-week action assignment, the authors have broken down the process into manageable chunks to enable students/writers to achieve an immediate sense of completion at every step. By using this scaffolding approach, the authors encourage the student researcher to focus on one part of the process rather than the total, sometimes overwhelming final product. With the exception of the Review of the Literature section, which takes several weeks to complete, all other thesis sections can and should be timed out for seven days. The authors' primary objective was to empower the student researcher to accomplish each of the steps in the process while never losing sight of the product that will help the children in their classrooms. Whether developing an Abstract or writing in-text citations, student researchers are guided throughout the nuances of the Publication Manual of the American Psychological Association's 6th Edition.

Ideas for lesson plans, use of technological applications, internet resources, and comprehensive up-to-date listings of children's, young adult, and multicultural fiction and nonfiction titles are among the text's outstanding features. Other features geared expressly for pre- and inservice teachers include engaging real-life classroom anecdotes, instructional activities for reading, writing, listening, speaking, viewing, and visually representing, boxes containing teaching hints and mini-lessons, a section on Response to Intervention (RTI) with the various tiers of intervention, theories of instruction and teaching activities for English language learners (ELLs), guidelines to meet the needs of special needs learners, suggestions for literacy-based interdisciplinary instruction including STEM and STEAM, examples of children's work to help readers understand what to expect from different ages and ability levels, questions and assignments to strengthen readers' aptitude, awareness, and application of topics to real life.
