Nearly 20 years ago, Raymond received severe head trauma from a car accident which left IM in a coma for nearly a month. Eventually, Raymond recovered but he had difficulty, especially with his memory. Harriet becomes Raymond primary caregiver. Harrier's health began to decline over the years eventually suffering a stroke and a broken hip requiring her placement in skilled nursing home. The family found themselves trying to determine what arrangements their mother had made for her care as well as Raymond.

They found that she neglected to address any of their affairs; no powers of attorney, no living wills, no wills and very small nest egg. It was to long after Harriet placement in the home that Raymond is placed the dementia ward of the same facility as Harriet. Because of the lack of planning Raymond son had to be declared is father's legal guardian by the Courts. Although the nursing home claimed the fourth floor was a dementia unit, it was little more than a limited access skilled nursing unit. Patients were permitted to wander the ward with little or no supervision.

The family was not happy about the situation but with limited financial resources there was no choice. On February 28th, 2011, Raymond was wandering the halls of the unit, one can only surmise what occurred next. According to a subsequent state investigation, the wing was left unsupervised. An amputee patient fell out of his wheelchair. A life member of the volunteer fire department Raymond heard the wonder alarm sounding and intuitively he attempted open the large nutritional door to the patient's room.

The patient was lying on the floor directly behind the door. The door would not open, so Raymond continued to push on the doors trying to be of assistance. Eventually, the staff heard the alarm and responded to find Raymond in the hall and the patient on the floor with head trauma. After the incident, the family received a call from the nursing home stating that Raymond need to go to the hospital psychiatric unit. The family was not alarmed as this had happened a few times before.

The home failed to elaborate. The morning news told the story of an incident of a dementia patient assaulting another. The following evening the news was of a dementia patient being charged with aggravated assault with the District Attorney office considering homicide charges. The family had to obtain a criminal attorney for Raymond, who had already been declared legal incompetent by the courts. It seems the nursing home had not mentioned that to the charging officer or the District Attorney's office.

They also had to obtain a civil attorney because the victim's family had indicated they were going to sue all the parties involved. Raymond could be of little help in his defense and became confused easily reverting to his earliest memories. Investigations were being conducted

White,Norbert

Elliot, Irvin Peckham, 2015-03-15 Winner of the 2015 CPTSC Award for Excellence in Program Assessment Written for those who design, redesign, and assess writing programs *Very Like a Whale* is an intensive discussion of writing program assessment issues. Taking its title from Hamlet, the book explores the multifaceted forces that shape writing programs and the central role these programs can and should play in defining college education. Given the new era of assessment in higher education, writing programs must provide valid evidence that they are serving students, instructors, administrators, alumni, accreditors, and policymakers. This book introduces new conceptualizations associated with assessment, making them clear and available to those in the profession of rhetoric and composition writing studies. It also offers strategies that aid in gathering information about the relative success of a writing program in achieving its identified goals. Philosophically and historically aligned with quantitative approaches, White, Elliot, and Peckham use case study and best practice scholarship to demonstrate the applicability of their innovative approach, termed Design for Assessment (DFA). Well grounded in assessment theory, *Very Like a Whale* will be of practical use to new and seasoned writing program administrators alike, as well as to any educator involved with the accreditation process. **How Students Write: A Linguistic Analysis** Laura Louise

Aull, 2020-04-01 Broad generalizations about people today are a familiar feature of first-year student writing. *How Students Write* brings a fresh perspective to this perennial observation using corpus linguistics techniques. This study analyzes sentence-level patterns in student writing to develop an understanding of how students present evidence, draw connections between ideas, relate to their readers, and ultimately learn to construct knowledge in their writing. Drawing on both first-year and upper-level student writing, the book examines the discourse of students at different points in their education. It also distinguishes between argumentative and analytic essays to explore the way school genres and assignments shape students' choices. In focusing on sentence-level features such as hedges, perhaps, and boosters, this study shows how such rhetorical choices work together to open or close opportunities for thoughtful exchanges of ideas. Attention to these features can help instructors foster civil discourse, design effective assignments, and expose and question norms of higher education.

Local Language Testing Slobodanka Dimova, Xun Yan, April Ginther, 2020-02-20 *Local Language Testing: Design, Implementation, and Development* describes the language testing practice that exists in the intermediate space between large-scale standardized testing and classroom assessment, an area that is rarely addressed in the language testing and assessment literature. Covering both theory and practice, the book focuses on the advantages of local tests, fosters and encourages their use, and provides suggested ideas for their development and maintenance. The authors include examples of operational tests with well-proven track records and discuss the ability of local tests to represent local contexts and values explicitly and purposefully embed test results within instructional practice and provide data for program evaluation and research. Local testing practices grounded in the theoretical principles of language testing, drawing from experiences with local testing and providing practical examples of local language tests illustrating how they can be designed to effectively function within and
