Unless you have a telescope to help you see.

This exciting and ongoing quest culminated recently in the discovery of hundreds of ice dwarfs in the Kuiper belt, robbed Pluto of its planet status and led to a better understanding of the origin of the solar system. This timely book reads like a scientific who-done-it, going from the heights of discovery to the depths of disappointment in the hunt for Planet X. Based on many personal interviews with astronomers, the well known science writer Govert Schilling introduces the heroes in the race to be the first in finding another world bigger than Pluto.
