Shared Borders, Shared Waters Sharon B. Megdal, Robert G. Varady, Susanna Eden, 2012-12-18 This collection of papers examines water management in two of the world's prominent arid transboundary areas facing similar challenges In the Middle East the chronically water short Israeli Palestinian region has recognized the need both to conserve and supplement its traditional water sources Across the globe on the North American continent Arizona a state in the southwestern United States bordering Mexico relies significantly on the overallocated Colorado River as well as on non renewable groundwater supplies For both regions sustainable and cost effective solutions clearly require innovative multifaceted and conflict avoiding approaches This volume is predicated on the role that science diplomacy can play in resolving difficult water related issues The history of natural resources disputes confirms that the scientific approach can reveal ways to overcome division Experience has shown

that scientifically trained experts who are sensitive to sociopolitical conditions can assist in developing and evaluating feasible water management solutions The insights and expertise of a distinguished and diverse group of researchers fill these chapters Contributors include established authorities as well as a number of budding scholars In a field traditionally dominated by males and by engineers this collection benefits from significant gender diversity and contributions from a broad spectrum of disciplines Policymakers water managers specialists such as university researchers and consultants and citizens all have an interest in finding sustainable strategies to address the many water management issues discussed in this volume The assembled papers underscore that much work remains to be done
