

Chicago Tribune's use of the word "discovery" is a good example of a healthy, but flawed, measurement. Published every day, the newspaper's circulation is the only metric that is not subject to the whims of a single writer. However, the newspaper's circulation is not a true measure of its impact on the world. The newspaper's circulation is not a true measure of its impact on the world. The newspaper's circulation is not a true measure of its impact on the world.

[illegible]

The author's perspective is somewhat complicated in *The Jewish American in the Twentieth Century*. The preface, written in 1970, presents the author's own account of his early life in America as a Jewish immigrant, a young man who had to learn to become an American. In the introduction, he explains his intention to explore the Jewish American experience in the twentieth century, a period of dramatic change in the Jewish American community. He notes that the Jewish American experience is a complex one, shaped by the interplay of Jewish and American traditions, and that the Jewish American experience is a unique one, shaped by the interplay of Jewish and American traditions. He also notes that the Jewish American experience is a complex one, shaped by the interplay of Jewish and American traditions, and that the Jewish American experience is a unique one, shaped by the interplay of Jewish and American traditions.
