Name: _____ Student ID: _____ Date: _____
 Institution: _____

Background Scenario

The Coastal Development Authority (CDA) is planning a large-scale infrastructure project along the coast. The project involves constructing a new road and a port facility. The project area is currently a mix of agricultural land and protected areas. The project is expected to create jobs and boost the local economy. However, the project also poses a significant threat to the biodiversity of the area. The project area is home to several rare and endangered species, including the coastal tiger and the mangrove crab. The project also threatens the coastal ecosystem, which is a vital part of the local environment. The CDA is facing a difficult decision: whether to approve the project and risk the loss of biodiversity, or to reject the project and miss out on the economic benefits.
