**CHAPTER 2
VENDORS**

Chapter 2 introduces students to the basic way that PCA works with vendor transactions. The first thing the students do is select

from the Navigation Bar to go to the Vendors & Purchases Navigation Center. After recording a purchase order, students record a vendor invoice using the Purchases/Receive Inventory window. The Purchases/Receive Inventory window is also the Purchases Journal. The Apply to Purchases tab is the default. The lower half of the window shows fields for Quantity, Item (inventory items), Description, GL Account, Unit Price, Amount, and Job. The default for the A/P Account is 20000, Accounts Payable. The Purchases/Receive Inventory window looks like a purchase order. Similar to other PCA windows, the icon bar appears at the top of the window.

When Bellwether Garden Supply orders and receives inventory from vendors, Account No. 12000, Inventory, is debited. Accounts Payable and the vendor account are credited. Vendors offer Bellwether a purchase discount for invoices paid within the discount period. The program defaults to 2% 10, Net 30 Days for purchase discounts.

Peachtree is a double-entry accounting system. There is a selection in Options; Global that allows general ledger accounts to be hidden. This is called Accounting Behind the Screens. The PCA windows in the textbook show the general ledger accounts. To check the Accounting Behind the Screens settings, do the following:
