Cognitive Electrophysiology H.-J. Heinze, T.F. Münte, George R. Mangun, 1994-01-26 MICHAEL S GAZZANIGA The investigation of the human brain and mind involves a myriad of approaches Cognitive neuroscience has grown out of the appreciation that these approaches have common goals that are separate from other goals in the neural sciences By identifying cognition as the construct of interest cognitive neuroscience limits the scope of investigation to higher mental functions while simultaneously tackling the greatest complexity of creation the human mind The chapters of this collection have their common thread in cognitive neuroscience They attack the major cognitive processes using functional studies in humans Indeed functional measures of human sensation perception and cognition are the keystone of much of the neuroscience of cognitive science and event related potentials ERPs represent a methodological coming of age in the study of the intricate temporal characteristics of cognition Moreover as the field of cognitive ERPs has matured the very nature of physiology has undergone a significant revolution It is no longer sufficient to describe the physiology of non human primates one must consider also the detailed knowledge of human brain function and cognition that is now available from functional studies in humans including the electrophysiological studies in humans described here Together with functional imaging of the human brain via positron emission tomography PET and functional magnetic resonance imaging fMRI ERPs fill our quiver with the arrows required to pierce more than the single neuron but the networks of cognition

Innovation, Quality and Sustainability for a Resilient Circular Economy Giovanni Lagioia, Annarita Paiano, Vera

Amicarelli, Teodoro Gallucci, Carlo Ingraio, 2024-02-23 This book is a selection of the best papers presented at the XXX National Conference of Commodity Science held in Bari Italy on 27 to 28th October 2022 It is designed to help advance the knowledge and application of Commodity Science in innovation quality and sustainability principles and goals Furthermore it provides support in confronting the current environmental and socioeconomic challenges and contributes to addressing and solving those concerns in a circular economy context Under this perspective the book highlights the central role that Commodity Science can play also considering the multiple possibilities of interacting with other relevant research sectors like food production and packaging engineering environmental science organisation management decision science and social science so enabling valorisation and maximisation These interactions will appeal to academics producers decision and policymakers and other stakeholders Thus this book has a multidisciplinary holistically integrated approach to Commodity Science that contributes to enhancing the current literature and knowledge

The Northwestern Miller, 1912

A Stakeholder

Approach to Managing Food Adam Lindgreen, Martin K. Hingley, Robert J. Angell, Juliet Memery, 2016-08-05 This research anthology explores the concept of food production and supply from farm gate to plate bringing together contemporary thinking and research on local national and global issues from a stakeholder perspective A Stakeholder Approach to Managing Food includes a number of sections to represent these challenges opportunities conflicts and cohesions affecting relevant stakeholder groups within food production and supply and their reaction to engagement with and co creation of the food environment For some local national and global interests may seem at odds We are in an era of growing and pervasive multi national corporations and these corporations have significant influence at all levels Rapidly growing economies such as China are a focus for the global brand but is this a scenario of adaptation or homogenization of food Alongside this trend toward national and global development in food this volume presents the counter reaction that is taking place especially in developed countries toward local speciality and culturally bound foods with emphasis on the importance of the inter connection of local communities and agri food culture and economy With an in depth analysis of agricultural businesses this book shows that the entrepreneurial spirit is alive and well in rural communities with often renewed and engaged connection with consumers and imaginative use of new media This book will be of interest to students researchers and policy makers concerned with agriculture food production and economics cultural studies
