Maritime Cabotage Law Aniekan Akpan, 2018-12-17 This is the most comprehensive review of maritime cabotage law It introduces the new theory of Developmental Sovereignty to jurisprudence The maritime cabotage law provisions and approaches as adopted in many states and jurisdictions has been extensively scrutinised This book challenges the established and accepted wisdom surrounding maritime cabotage by presenting new reasoning on the underpinning principles of the concept of maritime cabotage law The book offers a vibrant discussion on the adjustment in the regulatory approaches of maritime cabotage from one that was intrinsically premised on the idea of national sovereignty to one that now embraces the broader ideology of development It investigates what the common understanding of the law of maritime cabotage should be and on what intellectual basis it can be justified It reduces the inconsistencies and confusion that surround the concept and application of maritime cabotage law to provide a more certain and more robust concept of maritime cabotage **Cathodic**

Protection for Reinforced Concrete Structures Paul M. Chess, 2018-10-12 Cathodic protection of reinforced concrete structures is a technique for rescuing corrosion damaged structures and in certain instances preventing them from corroding in the first place and its use is growing This book is for specialist contractors large consultants and owners of corrosion damaged structures and looks at international experience with this technique It examines why corrosion is occurring the differences in the application of CP with the stark dichotomy in its success and failure and finally ways in which its performance can be improved on future installations Information is valuable as the success or failure of the CP system has a marked effect on the service life of the structure **Outcome-Based Cooperation** Christopher Hodges, 2022-09-22 How do

we cooperate in social local business and state communities This book proposes an Outcome Based Cooperative Model in which all stakeholders work together on the basis of trust and respect to achieve shared aims and outcomes The Outcome Based Cooperative Model is built up from an extensive analysis of behavioural and social psychology genetic anthropology research into behaviour and culture in societies organisations regulation and enforcement The starting point is acceptance that humanity is facing ever larger risks which are now systemic and even existential To overcome the challenges humans need to cooperate more rather than compete alienate or draw apart Answering how we do that requires basing ourselves our institutions and systems on relationships that are built on trust Trust is based on evidence that we can be trusted to behave well ethically built up over time We should aim to agree common goals and outcomes moderating those that conflict produce evidence that we can be trusted and examine our performance in achieving the right outcomes rather than harmful ones The implications are that we need to do more in rebasing our relationships in local groupings business organisations regulation and dispute resolution The book examines recent systems and developments in all these areas and makes proposals of profound importance for reform This is a new blueprint for liberty solidarity performance and achievement *Maritime Technology and Engineering III* Carlos Guedes Soares, T.A.
