Pursuing Instructional Effectiveness in Higher Education Edwin George Ralph, 2004 The title of this book has two meanings One meaning expresses a sense of relief that during the last several years post secondary institutions have begun to pay serious attention to the enhancement of instruction on their campuses There has been an emergence of new organisations associations conferences seminars and workshops a proliferation of books journals and articles an expansion of research and investigative inquiry and a growth of interest among post secondary faculty members and administrators all of which are devoted to various aspects of the improvement of both teaching and learning at the undergraduate level These initiatives have combined to furnish undeniable evidence attesting to the pursuit of better teaching and learning in higher education Increasing numbers of post secondary educators students and tax payers at large not only welcome wholeheartedly this new emphasis and as suggested by the last clause in the title they feel it has been long overdue A second interpretation of the title and the one which is a key theme of this book emphasises the substantive concept of the use and management of time and timing as an integral component of effective instruction

From the Introduction Classroom Assessment James H. McMillan, 2004 This book provides prospective and current teachers with a concise non technical and practical guide to conducting a full range of high quality classroom assessments The text emphasizes assessment in the context of the realities of teaching and teacher decision making as well as on how assessment is integrated with instruction Assessment methods are integrated with instruction and presented according to when teachers evaluate students before during and after an instructional unit and the learning targets that are measured There is considerable emphasis on the nature of learning targets and how different assessments are most appropriate for different targets For each assessment technique suggestions for effective practice are presented with examples and case studies There are separate chapters on contemporary assessment techniques and issues such as performance and portfolio assessments as well as separate chapters on assessing affective targets and students with disabilities included in the regular classroom A balance is provided with traditional forms of assessment and the need for teachers to administer interpret and use results from standards based large scale assessments and other standardized tests
