CRITICAL ANALYSIS OF QUALITATIVE RESEARCH REPORT

The purpose of this paper is to critically analyze a qualitative research report named as a qualitative study of nursing student experiences of clinical practice. A step by step careful examination will be used to identify strengths and weaknesses of this study by relating with standard research reports. The importance of understanding, critically analyzing and applying research becomes vital when so much rests on professional ability and accountability. Given the amount and complexity of available information and the limitations of a nurses' time, there is the need to use a process which provides a concise way to analyze the results of research findings (Hamer and Collinson 1999).

The title of this study is attractive clearly introducing the key variable and also the phenomena of interest and study population. The title should not be long and complicated and should reflect as much as possible what the research is about (Parahoo and Reid 1988). The title does not validate or invalidate the research (Parahoo and Reid 1988).

Abstract of this study is clear and concise giving a brief summary of main features of reports including background, methodology, results and conclusion, more over further research is recommended clearly in the abstract part. An abstract or summary should clearly outline the
