Part IV – Narrative Description of Your Activities

One Community Incorporated is a nonprofit corporation organized and operated exclusively for charitable purposes. Specifically, this organization has been formed to instruct individuals for the purpose of improving or developing their capabilities, to educate the public on subjects useful to the individual and beneficial to the community and to provide relief to the poor, distressed and underprivileged. Our organization has designed and developed one (1) program in furtherance of our purposes.

Our program is entitled: **One Community Incorporated**. We further our purposes under this program by Creation of an eco-sustainable community designed to advance the development of permaculture, art, and eco-construction. We intend to conduct the following activities:

- **Low Income Housing Construction** – We will be teaching people how to build their own low-income houses that they will then be able to live in for free as they help others to do the same. We will also be building concept houses and developing construction packages/templates for others to purchase and follow. We will offer these templates for free to other non-profits.
- **Food Production** – We will teach people how to be 100% food self-sufficient by growing their own food. We will do this for residents and as a scholarship program for other interested individuals.
- **Independent Business Support** – We will supply money and labor to grants to qualifying individuals wishing to create businesses. Most of these businesses will revolve around artistic ventures, but are not limited to art.
- Our current fund raising activity is entirely word of mouth and internet research. We also are looking into conventions where companies like ours can present our idea and business model to interested donors. We will NOT be doing paper, radio, or television advertising.
- We will be selling living space to volunteers not wishing to live in low-income housing and rental space to anyone visiting that is not part of who we are helping. We will also sell food produced by our volunteers to help fund the creation of more food production facilities. Rental and housing space will be sold on the property to the public. Food will be sold to anyone who wants to buy it in the area surrounding our project. It will take a year to set everything up and then we should be able to run a regular outreach program that makes us self-sustainable and capable of expanding and duplication of our program to provide more and more assistance to people in need.
