

To Whom It May Concern:

I am writing this letter of recommendation on behalf of Dailyn Foster, a 12th grade student at Renaissance High School who will be graduating in the spring of 2010. Dailyn has been a very good student that has maintained a 3.3 G.P.A. and scored a 22 on her ACT exam.

Dailyn has been involved in many meaningful extra-curricular activities which include Earth Tomorrow, a school club that focuses on keeping the Earth a safe place and partnerships with other organizations that do similar things. She has also been a member of Students-Against Destructive Decisions, an organization that focuses on teenagers making healthy decisions in each area of their lives. She participated in a Diversity Club that focuses on people of different cultures and ethnicities living and working together. She has also done community service with Delsprite, which includes visiting disadvantaged children, the elderly, and feeding homeless people. She has also been a member of ROTC, is the Parliamentarian of DECA, and a member of the Spanish National Honor Society.

Dailyn is also a very creative thinker that has exceptional critical thinking skills. Although she has been a very good student, her discussion skills, as well as leadership skills are exceptional and will make her very good in the career she chooses. I highly recommend Dailyn to be admitted into Howard University. She is a good student and exceptional person that represents our school well, and will represent herself and the University she attends well in the future.

Sincerely,

College Admissions and Beyond: The Experts' Proven Strategy for Success Lillian Luterma n, Jennifer Bloom, 2011-07-05 An award winning step by step guide to college admissions that helps students through every aspect of the application process and gives them a proven approach to make their application stand out from the rest Two expert college admissions consultants a mother daughter team share their step by step proven strategy for creating an application that stands out and gets you IN College admissions has never been more stressful Not only is admission ruthlessly competitive with more and more qualified students applying each year but the application process has become more confusing than ever before Most parents and students feel anxious overwhelmed and confused by the choices and trade offs In is based on the authors 20 years of experience working privately on boarding college and graduate school admissions with students from all over the world While there is no shortage of college admissions guidebooks on the market In offers students and their parents a

crucial element that none of the others do a clear step by step strategy that helps students not only compete academically with other qualified applicants but also develop a defining interest in incremental attainable steps that distinguishes them from their peers and gives them an edge with college admissions officers This strategy is summed up in a four word phrase be alike but spike This means that the applicant must perform on par with other students applying to similar colleges while also working to stand out from the pack like a spike on a graph in one area Ironically it s often the well rounded student an ideal many applicants strive for who gets rejected In shows students how to create that distinction by identifying and layering their passion showcasing their interest in many different ways and circumstances Enlivened with instructive case studies as well as entertaining New Yorker cartoons this book carefully guides students through the application process showing them how to rise to the top of an applicant pool of thousands And unlike most books about getting in In s lessons do not end at college acceptance Rather than viewing college admissions as a hurdle to be quickly and painlessly cleared mother daughter team Luterman and Bloom present it as an opportunity for students to mature expand their horizons and discover what makes them tick Not only does this book get you in it gives teenagers the tools and confidence they ll need for future success Be Alike How to optimize your GPA standardized tests extracurricular activities and more Spike How to develop a unique area of distinction that makes you stand out from your peers How to create a winning college application including personal essays activity chart letters of recommendation and more How to choose the right college for YOU and how to prepare to attend and afford your top choice school **adMISSION POSSIBLE** Marjorie Hansen Shaevitz,2012-04

Admission Possible doesn t just describe college admissions it shows exactly what to say and do every step along the way from freshman through senior year of high school using fully illustrated examples and checklists **Ahead of the Curve:**

What Parents Need to Know to Get Their Kids Into College Amber C. Saunders,2014-09-02 Navigating the high school years and getting a student ready for the next step in their education can be challenging for everyone involved Ahead of the Curve will be your college adviser in a book keeping you and your child on the successful path to college It includes separate chapters for grades 9 through 12 for easy reference Each section contains helpful checklists of tasks to accomplish each year including questions to ask tests to take resources to take advantage of and much more Also includes a valuable section on financial aid and useful resources for study aids tutoring assistance test prep choosing a major and staying organized This book will take the Google work out of college preparation and give parents and students a comprehensive but fun guide to navigating the high school to college years *Reaching Algebra Readiness (RAR)* Tony G. Williams,2011-10-30 Research has

shown that algebra is the doorway and gateway for future success of students in many aspects including high school graduation attending and success in college and professional earning power And the most important key to students success in algebra is their readiness This book is not only a program that addresses algebra readiness it is also a fundamental reform effort based on the National Mathematics Advisory Panel s NMAP s Final Report spring 2008 The book approaches

mathematic skills deficiencies on an individual basis much like an IEP addresses the individual needs of a student with disabilities The Reaching Algebra Readiness RAR process consists of four components 1 Diagnostic assessing student s mastery of the skills needed to take algebra 2 Prescriptive developing an individualized plan to address specific math deficiencies 3 Intervention utilizing tools and resources parental involvement effective teaching strategies etc to improve students mathematics skills and 4 Drills and Effective Teachings Strategies mathematics is a discipline and simply there is no way of avoiding practice and drilling in reaching algebra readiness which can be enhanced significantly by implementing proven effective teaching strategies The Reaching Algebra Readiness RAR process and the related materials presented in this book will be revolutionary in helping all students acquire the math skills needed for success in algebra and beyond This book is a must guide for math teachers parents who home school parents who are looking for solutions and educators pursuing fundamental education reforms
