Police Services Act Use Of Force:

Police Integrity in South Africa Sanja Kutnjak Ivkovich, Adri Sauerman, 2020-04-29 Policing in South Africa has gained notoriety through its extensive history of oppressive law enforcement. In 1994 as the country's apartheid system was replaced with a democratic order, the new government faced the significant challenge of transforming the South African police force into a democratic police agency, the South African Police Service (SAPS), that would provide unbiased policing to all the country's people. More than two decades since the initiation of the reforms, it appears that the SAPS has rapidly developed a reputation as a police agency beset by challenges to its integrity. This book offers a unique perspective by providing in-depth analyses of police integrity in South Africa. It is a case study that systematically and empirically explores the contours of police integrity in a young democracy. Using the organizational theory of police integrity, the book analyzes the complex set of historical, legal, political, social, and economic circumstances shaping police integrity. A discussion of the theoretical framework is accompanied by the results of a nationwide survey of nearly 900 SAPS officers probing their familiarity with official rules, their expectations of discipline within the SAPS, and their willingness to report misconduct. The book also examines the influence of the respondents' race, gender, and supervisory status on police integrity. Written in a clear and direct style, this book will appeal to students and scholars of criminology, policing, sociology, political science, as well as to police administrators interested in expanding their knowledge about police integrity and enhancing it in their organizations.

Lethal Force and New Zealand Police Richard S. Shortt, 2022-08-22 This book challenges the notion that the New Zealand Police are one of only four global police services that does not have routinely armed officers. Using arguments and facts drawn from 2000 to 2019, a period of important change for the organisation and its relationship with firearms, particularly following the outrages of the Christchurch mosques terrorist massacres in 2019 and the 2020 shooting death of a young police constable in Aotearoa New Zealand, this book provides a brief history of the Police from its beginnings to the present day, with a specific focus on its relationship with firearms which contextualize the law that justifies use of lethal force in a country that has abolished the death penalty. It examines police policies, procedures, training, and structures governing deployment and use of firearms in Aotearoa New Zealand and the independent oversight that now applies to fatal and non-fatal shootings by Police. Using 43 publicly released oversight agency reports and data directly related to police shootings, such as who is being shot, this book investigates how the police are using lethal force, who is being affected, and what this might mean for the service with regards to the operational deployment of firearms and the potential for use of lethal force within the community into the future.

India Thusi, 2021-12-21 Sex work occupies a legally gray space in Johannesburg South Africa and police attitudes towards it are inconsistent and largely unregulated As I India Thusi argues in *Policing Bodies* this results in both room for negotiation that can benefit sex workers and also extreme precarity in which the security police officers provide can be offered and taken away at a moment's notice Sex work straddles the line between formal and informal Attitudes about beauty and subjective value are manifest in formal tasks including police activities which are often conducted in a seemingly ad hoc manner However high level organizational directives intended to regulate police obligations and duties toward sex workers also influence police action and tilt the exercise of discretion to the formal In this liminal space this book considers how sex work is policed and how it should be policed Challenging discourses about sexuality and gender that inform its regulation Thusi exposes the limitations of dominant feminist arguments regarding the legal treatment of sex work This in depth historically informed ethnography illustrates the tension between enforcing a country's laws and protecting citizens human rights
