

Psychotherapy Progress Note

Use this note to document individual, family or couples psychotherapy sessions and person's response to the intervention during a specific contact.

Data Field	
Person's Name	Record the first name, last name, and middle initial of the person. Order of name is at agency discretion.
Record Number	Record your agency's established identification number for the person.
Person's DOB	Record the person's date of birth.
Organization Name:	Record the organization for whom you are delivering the service.
Modality	Check appropriate box to indicate the type of session: individual, family or couple.
List Name(s) of Person(s) Present	Check appropriate box to indicate whether the person is Present, is a No Show/Cancelled or the Provider Cancelled. For cancellations, complete Explanation as needed. Check appropriate box to indicate if others are present, list name(s) and relationship(s) to person.
Person's Report of Progress Towards Goals/Objectives Since Last Session	Document person's self-report of progress towards goals since last session including other sources of information, such as family, case manager, etc.
New Issue(s) Presented Today	There are four options available for staff using this section of the progress note: 1. If person does not report/present any new issues, mark "None Reported" and proceed to planned intervention/goals. 2. If person reports a new issue that was resolved during the session, check the "New Issue resolved, no CA Update required" box. Briefly document the new issue, identify the interventions used in the Therapeutic Interventions Section, and indicate the resolution in the Response Section of the progress note. Example: Person described being involved in a minor car accident today. Person was not hurt but expressed concern regarding expense of car repair. Person felt more relieved after identifying ways to cover expense over the next two weeks. 3. If person presents an issue that has been previously assessed and for which Goals/Objectives and services have been ordered, then the information may be briefly documented as an indicator of the progress or lack of progress achieved. 4. If person presents any new issue(s) that represent a therapeutic need that is not already being addressed in the IAP, check box indicating a "CA Update Required" and record notation that new issue has been recorded on a Comprehensive Assessment Update of the same Date and write detailed narrative on the appropriate CA Update as instructed in this manual. Also, the newly assessed therapeutic information may require a new goal, objective, therapeutic intervention or service that will require further use of the IAP Review/Revision form. Example: Person reported for the first time that she was a victim of abuse/neglect at the age of twelve as recorded on the Comprehensive Assessment Update of this date.

Managing Social Anxiety Debra A. Hope, Richard G. Heimberg, Cynthia L. Turk, 2010 Social Anxiety Disorder SAD is common and often underdiagnosed. It can interfere with school or work and may cause difficulty with close relationships. In repeated trials, cognitive behavioral therapy has proven the most effective treatment for this disorder. Written by the developers of an empirically supported and effective CBT program for treating Social Anxiety Disorder, this guide includes all the information and materials necessary to implement successful treatment. The therapeutic technique described in this book is research based with a proven success rate and can be used with those clients currently taking medication as well as those who aren't. Using a model that focuses on how social anxiety is maintained rather than how it develops, the renowned authors provide clinicians with step by step instructions for teaching their clients important skills that have been scientifically tested and shown to be effective in treating Social Anxiety Disorder. Designed to be used in conjunction with its corresponding workbook, the therapist guide focuses on using cognitive restructuring techniques along with in vivo exposure to help break the cycle of anxiety. When used together, both books form a complete treatment package that can be used successfully by informed practicing mental health professionals. Complete with session outlines, key concepts, case vignettes, and strategies for dealing with problems, this user friendly guide is a dependable resource that no clinician can do without.

Record Keeping in Psychotherapy and Counseling Ellen T. Luepker, 2022-03-17 Record Keeping in Psychotherapy and Counseling Ethics Practice and Supervision grounded in contemporary challenges emphasizes protecting the therapeutic and supervisory relationship through offering an essential framework for thoughtful record keeping within legal, ethical, supervisory, and clinical contexts. A reader friendly conversational style plus compelling case examples from a variety of settings, clinic to courtroom, bring dilemmas and strategies to life. New case studies invite readers to examine principles of ethical decision making in order to reach sound decisions, meeting a critical need in training and continuing education. New material on telehealth and electronic records, the impact of digital communications on the therapeutic relationship, and experience implementing the Health Insurance Portability and Accountability Act (HIPAA) bring this book up to date. Sample forms for readers' use and modification are available on the publisher's website. Practitioners in all mental health disciplines, from students to seasoned clinicians, the supervisors and teachers will continue to rely on this book for protecting themselves, their patients, and their trainees.
