

Florida Department of Education

Florida Standards for Mathematics

Grade 8 Mathematics

These abilities to collect, manipulate or analyze, and represent data in an organized fashion are very important. Through data manipulation, students gain data analysis, organization, analysis, and these conclusions from data. Organizing data from tables and then applying the system for analysis may be the most important skill. However, the ability to represent the data in a table is also an important skill.

Characteristics of a Good Student

Goals

These students will be able to do things as follows: understanding of mathematics, understanding of the world, and of your own learning. Students will be able to do things as follows: understanding of mathematics, understanding of the world, and of your own learning. Students will be able to do things as follows: understanding of mathematics, understanding of the world, and of your own learning. Students will be able to do things as follows: understanding of mathematics, understanding of the world, and of your own learning.

Florida Standards for Mathematics
