Make Sense of Shooting Modes

Auto Mode

The camera will automatically try and choose the best possible settings. In auto mode, there's no need to mess with any of the settings. Just point and shoot.

Portrait Mode

Keeps your subject sharp while creating a beautifully blurred background.

Landscape Mode

Designed for capturing sweeping vistas or huge crowds. In this mode, your camera increases the Aperture f-stop number in order to maximize depth of field. Objects both near and far will be in sharp focus.

Child Mode

In this mode, clothing and backgrounds are colorful while keeping skin tones soft and natural looking. Shutter speed is also increased to capture kids who are a bit more wiggly.

Sports Mode

The camera uses a faster shutter speed to capture fast-moving objects. Essentially allowing you to "freeze" action scenes.

Close Up Mode

The camera uses a smaller aperture to improve depth of field. Perfect for macro shots, close-ups of flowers, insects, and other objects.

Night Portrait Mode

The camera uses a slower shutter speed and flash to capture more light. Useful in low light situations. But use a tripod to avoid camera shake.

Manual Mode

This is designed for experts who want complete control over their camera settings. In this mode, you choose the shutter speed, aperture, and ISO.

Aperture Priority

This is a semi-automatic mode that allows you to choose the aperture yourself. The camera will automatically set the shutter speed that will produce the proper exposure. The semi-automatic modes are a great place to start when you're first venturing out from full automatic.

Shutter Priority

Allows you to choose the shutter speed yourself. The camera will automatically select the aperture (f-stop) that will produce a proper exposure.

Program AE Mode

The camera sets the shutter speed and aperture but you control flash, white balance, ISO, etc...

No Flash

Same as full auto mode, but with flash disabled.

Creative Auto

Same as full auto mode, but with a little more control over focus, exposure and color.

Movie

Allows you to record video.
