Nimej Result Of 2015:

Suicide in Twentieth-Century Japan Francesca Di Marco, 2016-01-29 Japan's suicide phenomenon has fascinated both the media and academics although many questions and paradoxes embedded in the debate on suicide have remained unaddressed in the existing literature including the assumption that Japan is a Suicide Nation This tendency causes common misconceptions about the suicide phenomenon and its features Aiming to redress the situation this book explores how the idea of suicide in Japan was shaped reinterpreted and reinvented from the 1900s to the 1980s Providing a timely contribution to the underexplored history of suicide it also adds to the current heated debates on the contemporary way we organize our thoughts on life and death health and wealth on the value of the individual and on gender The book explores the genealogy and development of modern suicide in Japan by examining the ways in which beliefs about the nation's character historical views of suicide and the cultural legitimization of voluntary death acted to influence even the scientific conceptualization of suicide in Japan It thus unveils the way in which the language on suicide was transformed throughout the century according to the fluctuating relationship between suicide and the discourse on national identity and pathological and cultural narratives In doing so it proposes a new path to understanding the norms and mechanisms of the process of the conceptualization of suicide itself Filling in a critical gap in three particular fields of historical study the history of suicide the history of death and the cultural history of twentieth century Japan it will be of great interest to students and scholars of Japanese Studies and Japanese History Science Citation Index ,1961 An international interdisciplinary index to the literature of science
