Nippon New Superpower Japan Since 1945:

Nippon, New Superpower William Horsley, Roger Buckley, 1990 Accompanying an eight part television series this book tells of the transformation of Japan from a humiliated and defeated country in 1945 to one of the world's leading commercial and industrial powers The book includes testimonies from many of the individuals who helped wreak this change **Japan since 1945** Dennis Smith, 1995-08-07 Few historians have attempted an account of Japan since 1945 yet the country's emergence as the second largest economy in the world has been one of the most dramatic and significant developments since the Second World War Dennis Smith's work takes a deliberately historical approach in the belief that it is impossible to assess the nature of post war Japan's achievement without first considering the significance of the pre war and wartime legacy It blends politics and economics aware that in Japan the close links between the worlds of politics government and of business deny rigid divisions Britain Since 1945 David Childs, 2006 This is the sixth edition of what has become the standard textbook on contemporary British political history since the end of World War II This authoritative chronological survey discusses domestic policy and politics in particular but also covers external and international relations The new and improved edition of this important book brings the picture to the present by including the following additions September 11th the Iraq war and after the election of Iain Duncan Smith DS and Michael Howard as leaders of the Conservative party the issue of immigration the new royal wedding the 2005 election the importance of China on the British stage Britain since 1945 is essential reading for any student of contemporary British history and politics US-Japan Alliance Diplomacy 1945-1990 Roger Buckley, 1995-08-10 This book explores how US Japan post war relations have moved from hostility to close friendship Israel's Quest for Recognition and Acceptance in Asia Jacob Abadi, 2004-03 Dr Abadi provides an overview of Israel's relations with Asian countries from 1948 until the present and analyzes the political social and economic factors in each country and the role that each played in the process of rapprochement with Israel Forging a Singaporean Statehood: 1965-1995 Robin Ramcharan, 2021-10-25 This work takes an in depth look at the multi faceted contemporary relationship between Singapore and Japan since the end of World War II It is the story of a relationship between an economic superpower Japan and an enterprising city state whose leaders have sought to emulate not only Japan's economic success but several key facets of Japanese society as well No other country surpasses Singapore in its public admiration of Japan How is it possible for a multi ethnic Singapore to emulate a relatively homogeneous Japan What features of economic and political motives behind the attempt to emulate Japan These and other questions are addressed in this work which will be of interest to scholars of the international relations and security of East and Southeast Asia *Organisational Learning in the Automotive Sector* Dr Penny West, Penny West, 2002-01-04 This book considers the concepts of organisational learning and the learning organisation and critically examines their take up within the context of four contemporary work organisations in the European automotive sector Within this dynamic environment the pursuit and implementation of approaches that encourage

individuals to learn and challenge existing orthodoxy are now dominant on the management agenda Changes to processes structures cultures and the employment relationship per se

The Economics of Industrial Location Philip McCann, 2013-03-09 The motivation for this book comes from the apparent inability of existing orthodox location theory to throw light on a series of location production problems which are typically faced by modern manufacturing and distribution firms These problems are related to the treatment of time by firms who normally view time costs in terms of inventory costs From this perspective traditional industrial location and linkage analysis can be re cast in a form in which space time problems can be dealt with in a unified manner The role played by input factor prices and market prices in location behaviour becomes dependent on the relationship between the frequency of shipment and the distance of shipment This approach provides new insights into the relationship between the optimal location of the firm and the value added by the firm under conditions of either fixed or varying local factor prices The approach can then also be extended to discuss the of the spatial changes involved in the new Just In Time JIT production question philosophy I would like to acknowledge the many helpful discussions I have had with Bernard Fingleton Masahisa Fujita Geoff Hewings John McCombie Ron Miller John Parr Tony E Smith and my colleagues at the University of Reading Table of Contents Preface vi Introduction 1 1 Comparing Western and Japanese Industrial Purchasing Linkages 5 1 1 Western Purchasing Linkages 5 Japanese Purchasing Linkages 7 1 2 1

The New Global Trading Order Dennis Patterson, Ari Afilalo, 2008-03-31 The international institutions that have governed global trade since the end of World War II have lost their effectiveness and global trade governance is fractured The need for new institutions is obvious and yet few proposals seem to be on offer The key to understanding the global trading order lies in uncovering the relationship between trade and the State and how the inner constitution of Statecraft drives the architecture of the global order and requires structural changes as the State traverses successive cycles The current trade order focused on the liberalization of trade in goods and services and the management of related issues is predicated on policies and practices that were the product of a global trading order of the 20th century modern nation states Today a new form of the State the post modern State is evolving In this book the authors propose a new trade norm the enablement of global economic opportunity and a new institution the Trade Council to overhaul the global trading order
