Nissan Customer Service Survey:

Corporate Restructuring David Vance, 2009-10-03 Corporate Restructuring is a practical approach to rescuing troubled companies and driving underperforming companies to top performance. It combines proven restructuring strategies with rigorous theoretical analysis. This book explains how to set and achieve asset staffing sales and profit goals. Topics include diagnostic tools to identify the root cause of problems, the human dynamics that cause a company to thrive or wither, customer service and relationship marketing, customer intelligence systems, new product development process mapping, continuous process improvement and re-engineering as well as integrating IT into corporate strategy. It is also discussed how to find the resources needed to keep a company alive during restructuring and how to use bankruptcy offensively and defensively. Corporate Restructuring emphasizes execution. All the restructuring theories in the world weigh less than a simple plan well executed. **FCC Record** United States. Federal Communications Commission, 1992

Marketing for Growth The Economist, Iain Ellwood, 2014-01-28 The Economist Marketing for Growth is a guide to how marketing can and should become a business's most important driver of growth. Marketers play a crucial role in generating revenue and they can play an equally important role in how revenues translate into profit. They can help a company achieve growth by being smarter or more efficient than its competitors and do so in a sustainable way. Marketers have their ear to the ground and therefore are often the first to pick up on changing customer needs and behavior and the forces at play in markets. This informs the development and improvement of products, processes and standard of service. The book explores how to identify the most valuable customers, the most effective ways to drive revenue growth and the best ways to improve profitability. It combines insight and practical guidance and is supported by a wealth of hard data and anecdotal evidence from a wide range of business in Britain, America, Europe and Asia including Amazon, China Mobile, Dove, Goldman Sachs, Haier, ING Direct, Lenovo, Mini, Procter Gamble, Red Bull, Target, Twitter, Virgin and Zara.
